1. INTRODUCTION

During the winter of 1987/1988 an assessment was made of the availability of public access to the waters (including the tributaries) of the Waterton River. This report inventories existing and potential access routes to the fisheries of this system. It will be used as a source of information for subsequent planning and development in the area.

It should be noted that only a few of the total number of potential sites may be developed and that this development will be restricted to those areas with the greatest need. Site development may range from the provision of parking facilities only to the construction of fully equipped campground facilities. The type of route developed to allow public admittance to these sites (from hiking trails to paved roads) and the type of site development will depend on funding from a variety of sources.

2. STUDY AREA DESCRIPTION

This report addresses the waters of the Waterton River Drainage Basin. The system covers an area of approximately 865 km² and its boundaries (defined by elevation) are shown in Figure 1 (p. 5). This area covers land in the Municipal District (MD) of Cardston No. 6, the MD of Pincher Creek No. 9, the MD of Willow Creek No. 26, and Improvement District No. 6. Other lands within the study area include parts of both Waterton Lakes National Park and the Rocky Mountain Forest Reserve. The individual streams looked at in the study, as well as the Waterton River, are highlighted in Figure 2 (p. 7).

The study area has within it three physical regions: the prairies, the foothills and the mountains. All three have been altered by wind, water and ice which has given the landscape character and reduced the visible boundaries between them.

Vegetation types reflect the three physical divisions. On the southern Alberta prairie, vegetation cover consists mainly of fescue prairie along with a few broad leaved deciduous trees, such as willow and poplar, that grow directly along the banks of rivers and streams. In the foothills, the number of these trees increases and a ground cover of brush on the floodplains is evident. Nearer the mountains, the conifer population increases and the grass cover decreases, while deciduous cover remains similar to that in the foothills.

2.1 Waterton River and Reservoir

For its entire length, the Waterton River runs through a well-defined U-shaped valley over a broad, gravelly floodplain. The banks, especially the steep (+200m) cutbanks, are subject to natural slumping and erosion. The river is fed by several tributary streams (described below) that flow from the ranges of the Rocky Mountains.

2.2 Drywood Creek (including North Drywood)

Drywood Creek runs through a narrow V-shaped valley which gradually widens into a broader U-shape as the stream nears Waterton Reservoir. Barriers to fish movement include the waterfall detailed as site #21 (see p. 81), the Gulf plant reservoir and the Pecten (Shell) gas plant reservoir. There is heavy algae growth below these reservoirs caused by effluents from the processing plants which also may or may not effect the quality of the fish. Further downstream, the siltiness of the water tends to reduce the fish population, but despite limitations, the stream has a fairly good population of trout and whitefish (Alberta Fish & Wildlife Stream Survey Inventory, 1980).

2.3 South Drywood Creek

South Drywood Creek flows in a channel similar to that of the North Drywood. There are waterfall barriers to fish movement, as well as subterranean flow at higher elevations during the drier months. Some portions of the stream have been re-channelled to facilitate crossings and for erosion control purposes. Ten kilometres of this stream are able to support fisheries (Alberta Fish & Wildlife Stream Survey Inventory, 1980).

2.4 Spionkop Creek

Spionkop Creek runs in a narrow channel which broadens towards its mouth. Eight and a half kilometres of this stream can support fisheries (Alberta Fish & Wildlife Stream Survey Inventory, 1980).

2.5 Yarrow Creek

Yarrow Creek flows from a narrow, rocky V-shaped valley with no floodplain at its headwaters, to a broader V-shaped valley as it nears the section of the Drywood into which it flows. There are no barriers to fish movement except for a waterfall at the head of the stream. Subterranean flow occurs over the winter between sites 10 and 11 (see Fig. 15 p. 109) as the result of the permeability of alluvial material present where the stream gradient has decreased. About 24 km of Yarrow Creek has adequate streamflow to support a fishery (Alberta Fish & Wildlife Stream Survey Inventory 1980).

2.6 Dungarvan Creek

Dungarvan Creek runs in a well-defined, variable width channel with little or no floodplain. There are no barriers to fish movement and flow is stable throughout the year. As well, it has been extensively stocked with trout (Alberta Fish & Wildlife Stream Survey Inventory, 1978). Currently, however, the trout population is self-sustaining and the creek is no longer stocked.

2.7 Cottonwood Creek

The Cottonwood Creek, which is readily accessible from Highway #6, flows through a series of incised meanders over an extensive floodplain. Besides being choked with vegetation, a proliferation of beaver dams tends to decrease the fish population. Approximately 6 km of Cottonwood Creek have adequate streamflow to support a fishery (Alberta Fish & Wildlife Stream Survey Inventory, 1979.)

2.8 Galwey Brook

Galwey Brook is a small tributary of Cottonwood Creek. It is a very narrow stream extensively vegetated with brush on its banks. Access is limited and no information is available from Alberta Fish and Wildlife as to the ability of this stream to support a fishery.

2.9 Crooked Creek

Crooked Creek is the southernmost tributary of the Waterton River and has its origins in the Rocky Mountain foothills rather than the mountains themselves. For most of its length it flows through a fairly deep, narrow V-shaped valley. As it approaches the Waterton River, though, the valley widens, becoming flat and taking on configurations similar to Cottonwood Creek. Beaver dams on the creek have been stocked with trout (Alberta Fish & Wildlife memo, 1978).

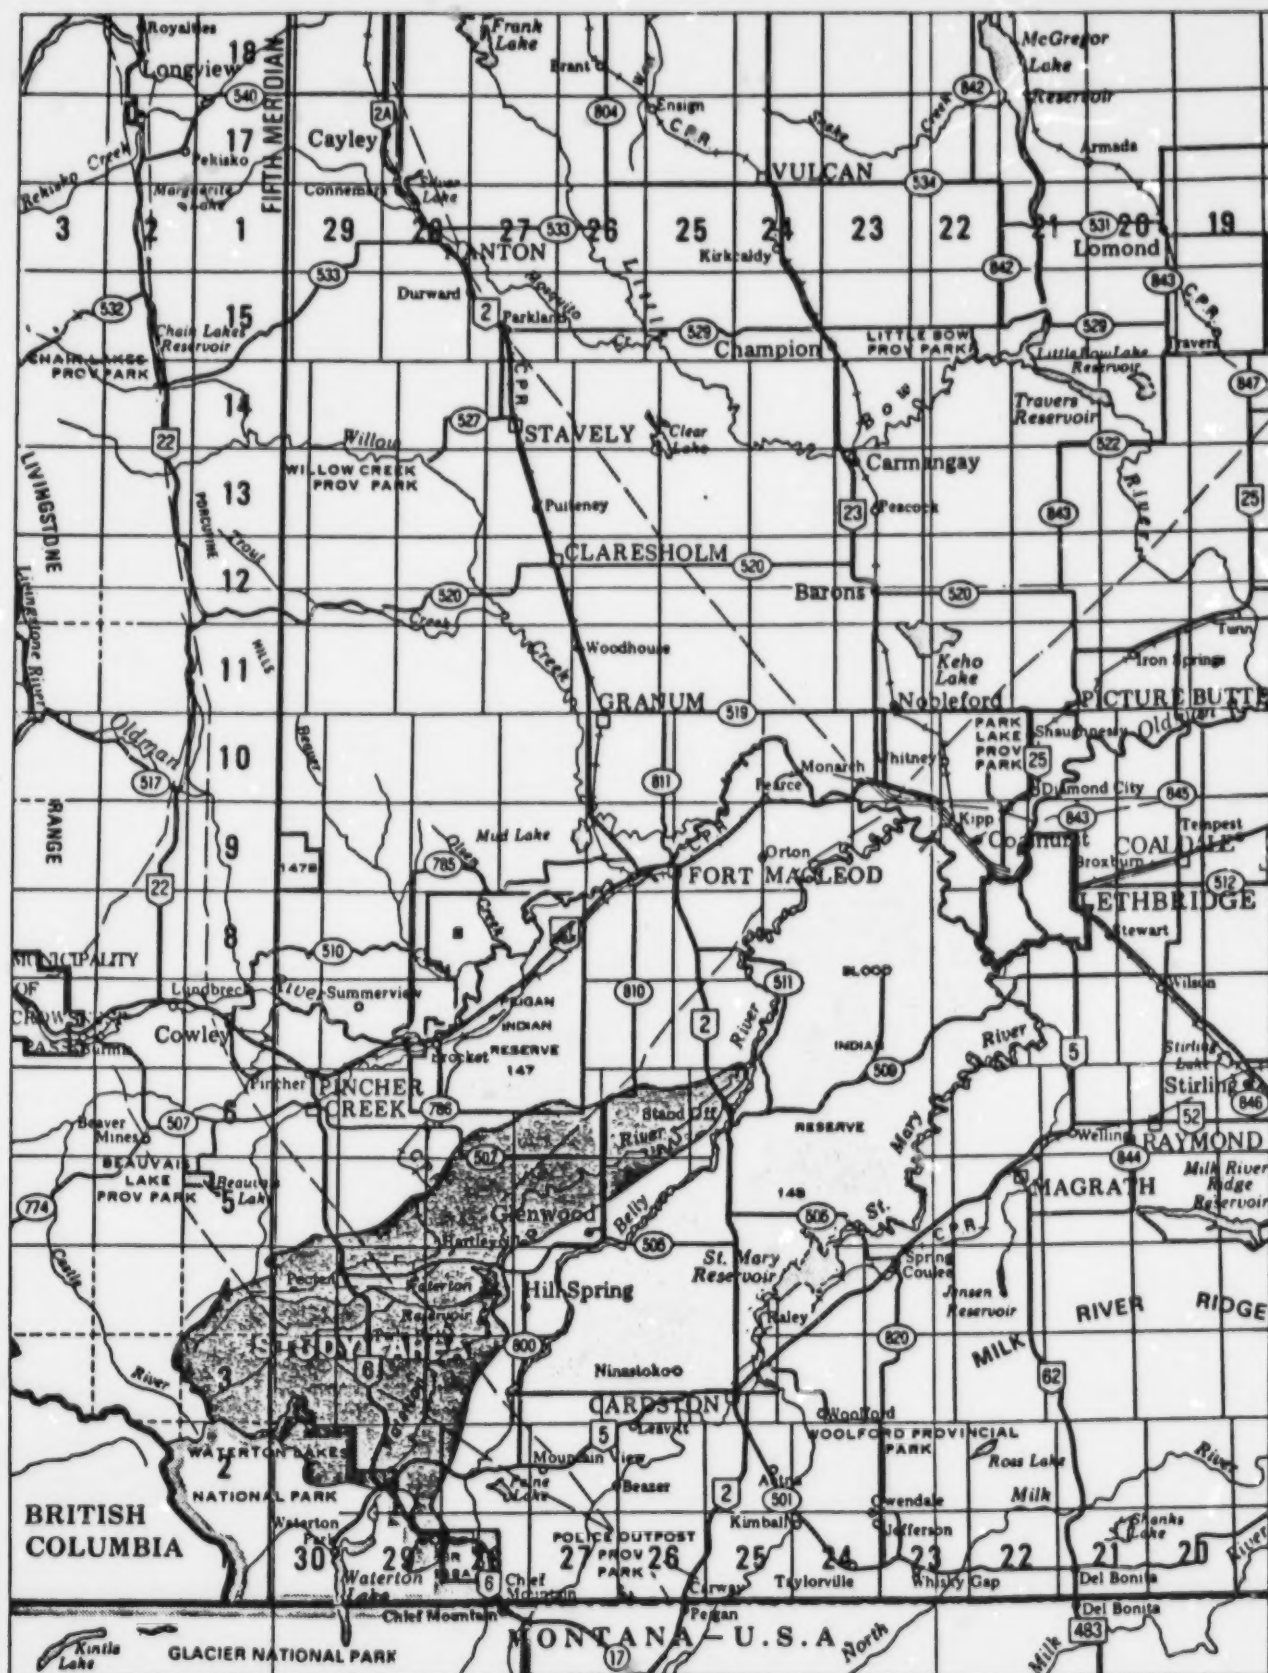

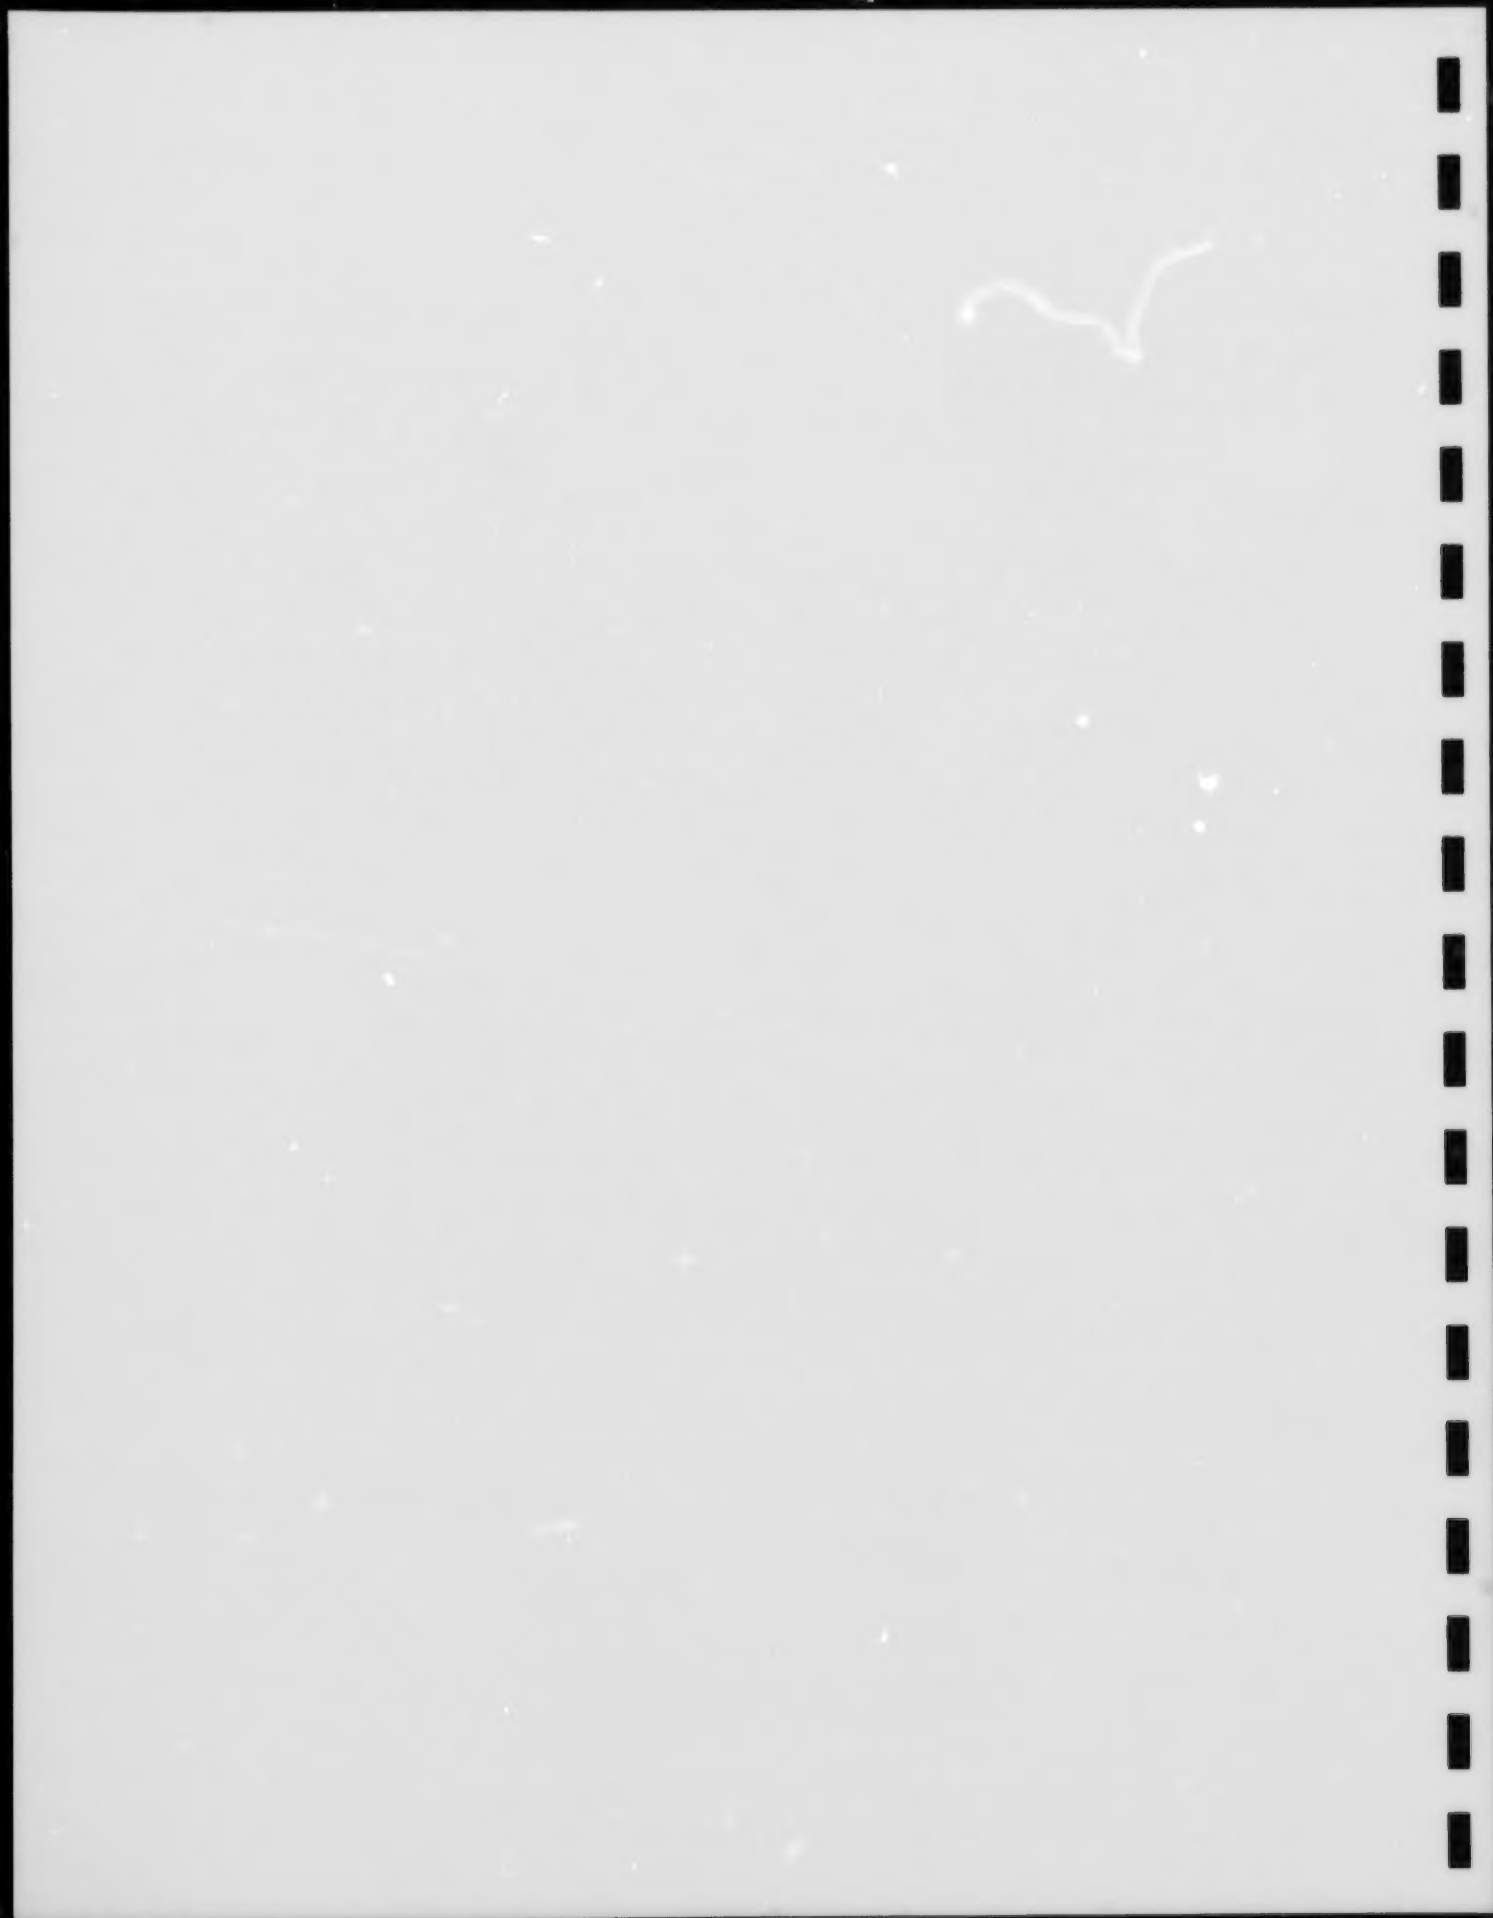

Fig. 1 Location of Waterton Fisheries Access Study Area

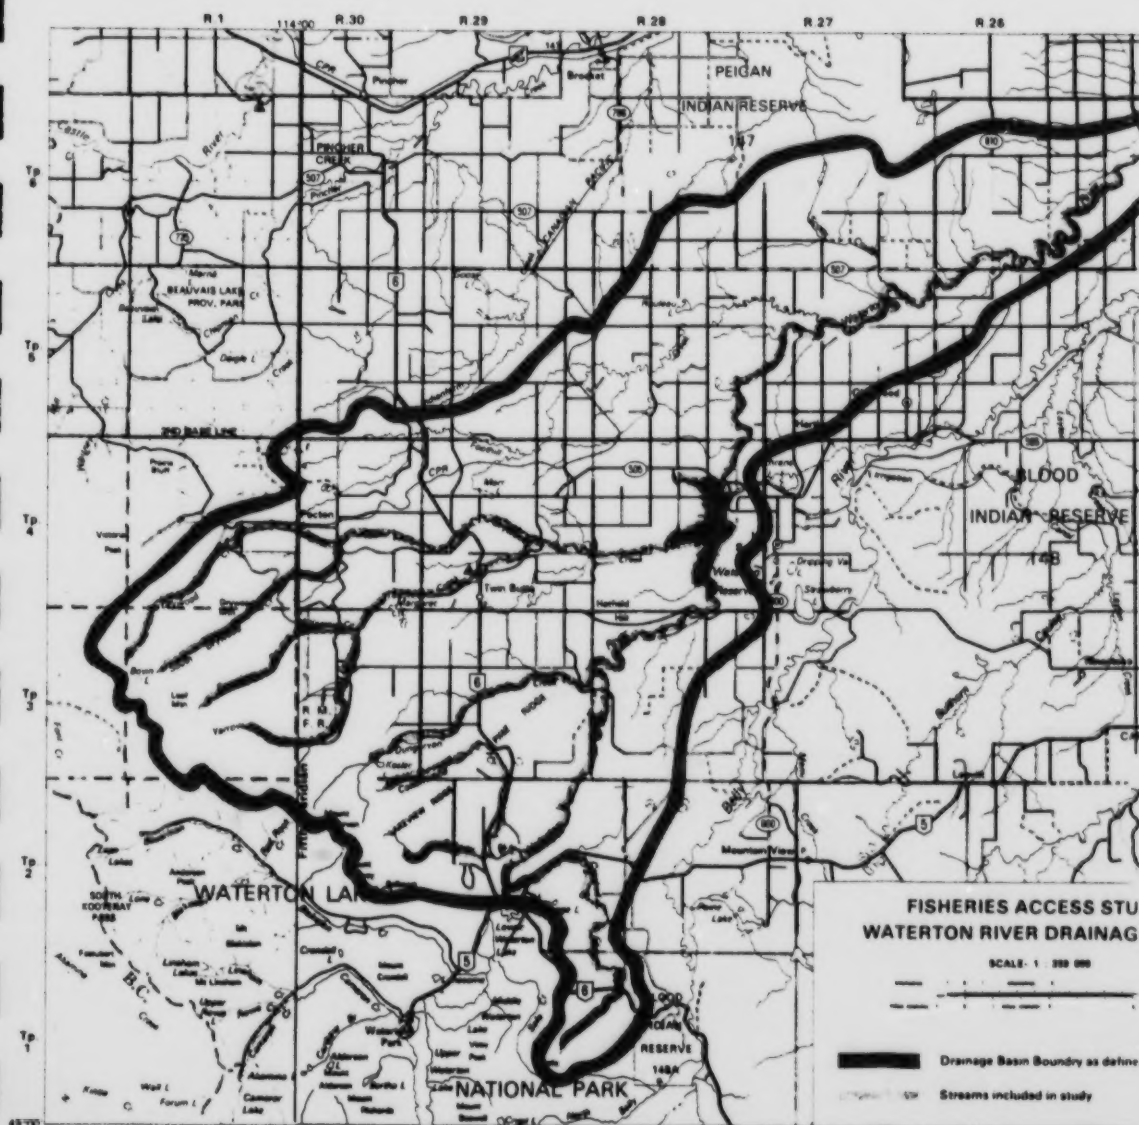

Fig. 2 Waterton River Drainage Basin.

3. METHODOLOGY

Background information for this study was obtained from previously written reports on the streams of the area; small scale maps of each stream were included and the local terrain, vegetation, etc. were briefly described. National Topographic Series (NTS) maps at scales of 1:50 000 and 1:250 000 were used, along with air photos of the area to locate potential sites for field investigation. Stereo pair coverage of the areas indicated the environment of each particular site as well as its accessibility. The field work involved taking black and white photographs at each potential site and completing an inventory form detailing the various aspects of the site. Each tributary creek was looked at separately and the Waterton River was divided into three sections: the Upper Waterton, Waterton Reservoir and Lower Waterton. One hundred and four potential access points were located. After the field study was completed, the photos were used to check some of the information gathered, such as distances between the main highways and sites. Conversations with landowners were beneficial in gaining opinions on the abundance of fish in various streams, or indications of willingness to allow people to fish on sections of stream that run across their land.

4. EXISTING & POTENTIAL ACCESS

Currently public access to the Waterton River and its tributary streams is available at primary and secondary road bridges. If a recreational facility has previously been set up, it is usually at one of these points. Technically, access is also available over undeveloped road allowances, although many of these trails are fenced off and/or posted with "no trespassing" signs. Another common type of access is on the land between road and stream where the road runs immediately adjacent to the water. Parking is usually available on the edge of the road.

Several bridges crossing water courses on roads of less than secondary status were posted as "private - use at own risk", so public access from these points should not be gained without prior permission of the landowner. Frequently, residences have been constructed near the river or stream and the roads leading to them are also available as possible access routes. Again though, permission from the landowner must be obtained to approach the water from these points.

Potential access exists where it is presently possible to reach a site (over a private road or muddy trail), but road and site improvement would have to be undertaken before the route was approved as public access.

Pipeline routes which are especially visible in forested areas, are unavailable as access to the streams. In this particular study area, most of these routes house gas lines leading to or from Shell gas production facilities. Although these routes are driven on, they are not considered safe. Access is also discouraged due to erosion problems.

The individual site description sheets that follow assess all possible points of existing and potential access to the river sections and streams of the Waterton River Drainage System.

5. SITE DESCRIPTION SHEETS

Each site detailed on the following pages is coded with a "location key" which identifies that site on both the large and small scale maps included with the report. This key also matches a particular photograph with its respective site.

Under the "Suitability for Development" section, each level of possible development is briefly described and the suitability of each type of development for a given location is shown by a number: "1" being most suitable with "3", as least suitable. The following criteria were considered in assessing the suitability of each site for development:

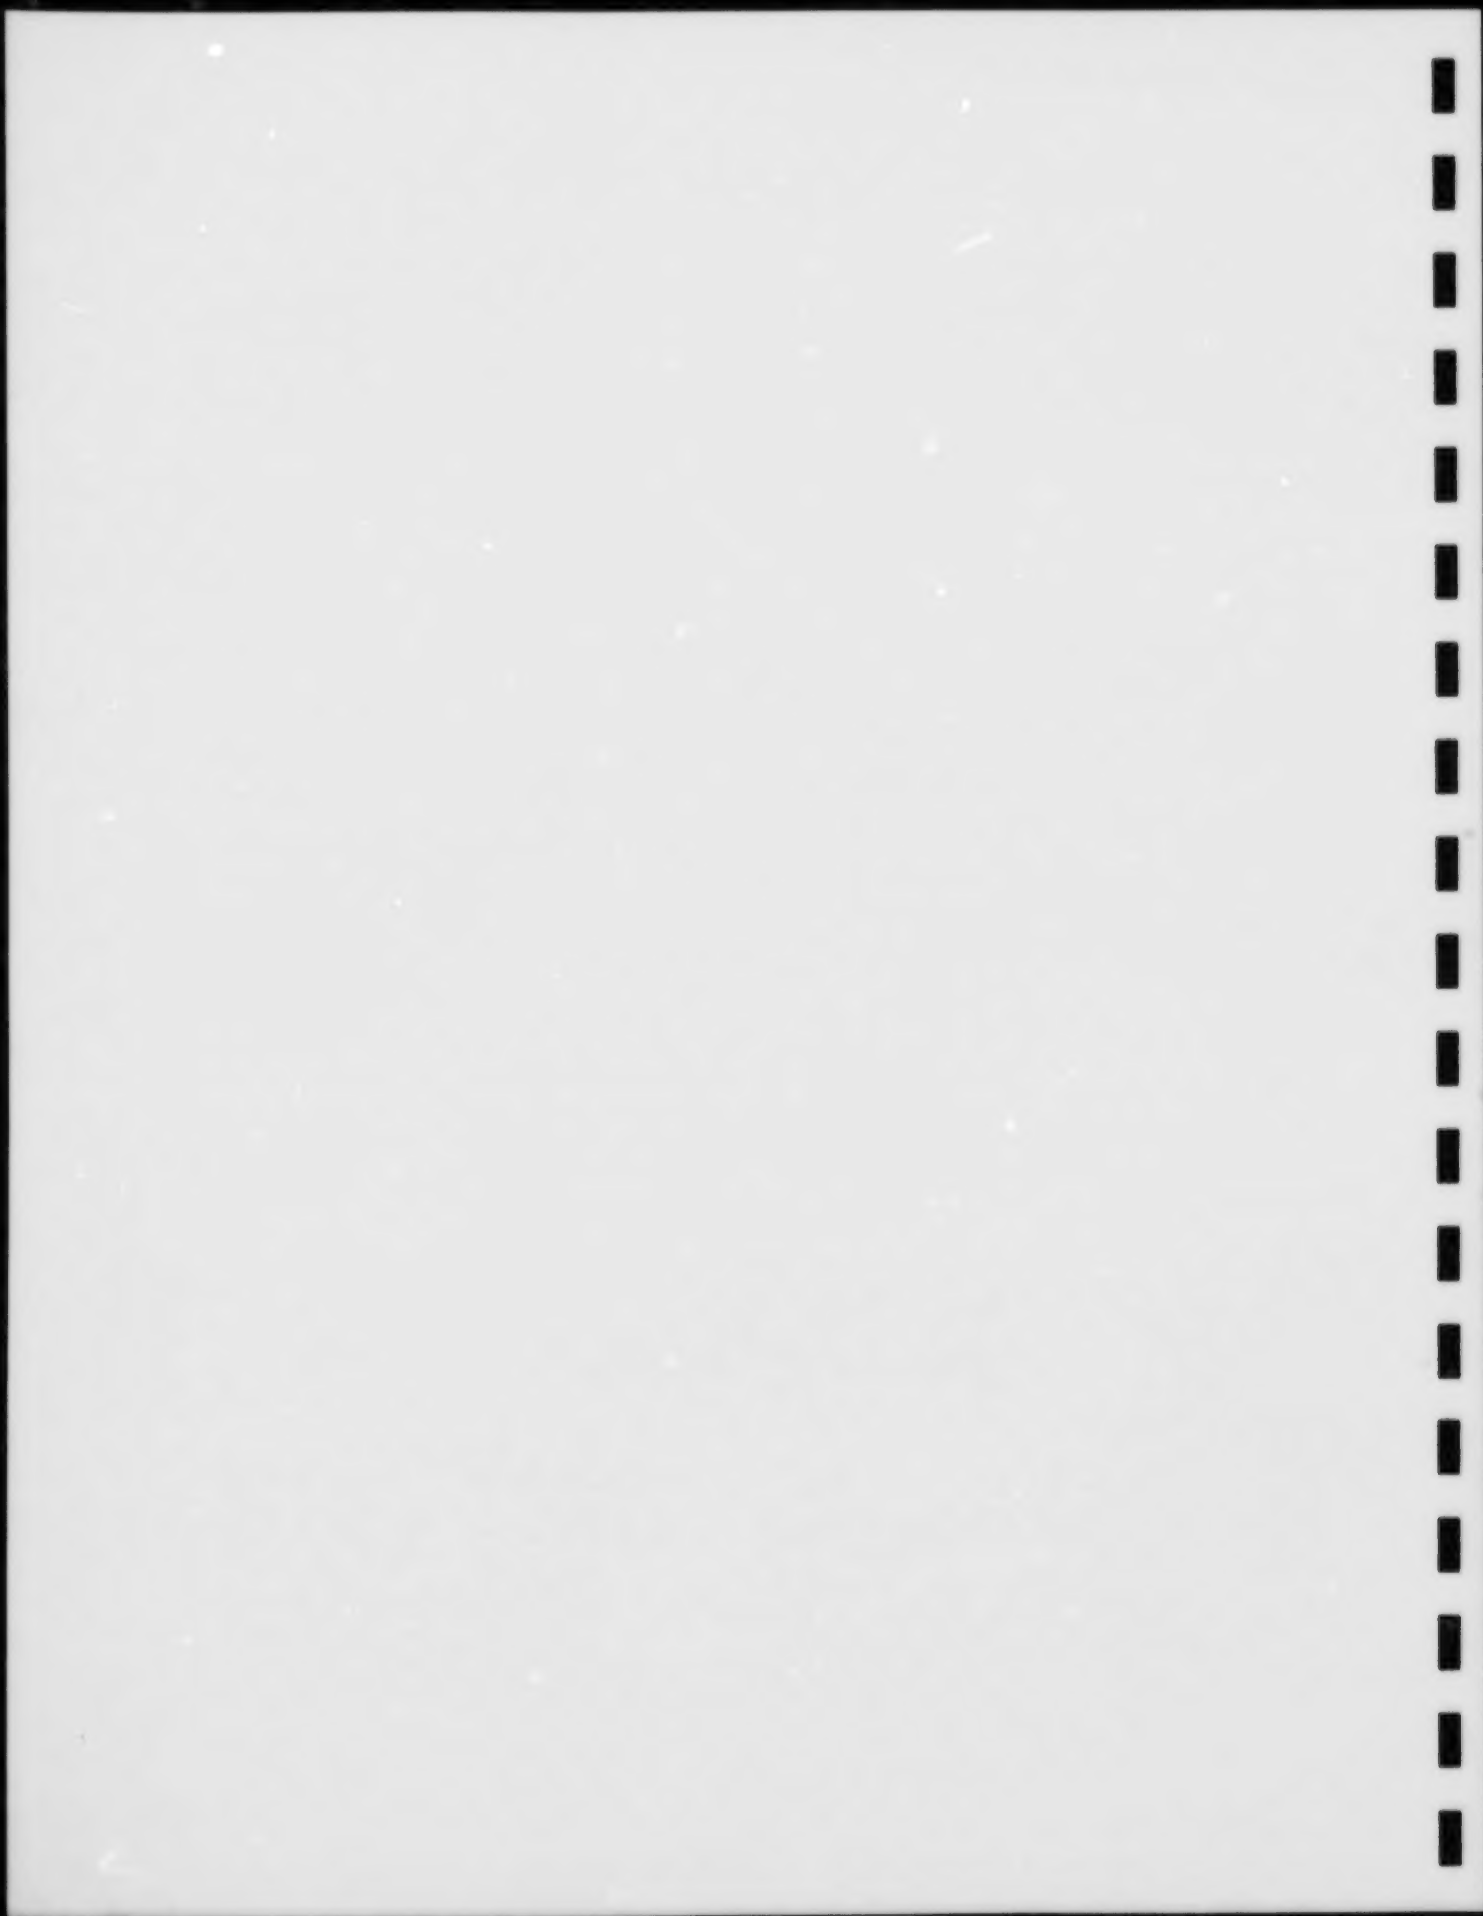

- distance from primary or secondary highways;
- aesthetic values of the site;
- presence or absence of trees and other vegetation cover; and
- ease of foot access to the edge of the watercourse.

Sites were identified as unsuitable if:

- (i) they were already developed;
- (ii) they rated poorly in terms of the criteria identified above; or
- (iii) there were other considerations, such as the existence of a developed site nearby which rendered the need for site development unnecessary.

Land ownership, jurisdiction and landowner attitudes were not taken into account in assessing site suitability for development, both because the focus of the report is solely on inventorying and assessing site potential and because land ownership changes over time. Alberta Forestry, Lands & Wildlife will not promote fisheries access site developments on federal lands or on patent lands where landowners do not want such development.

Several of the sites detailed in the report are located on land that is not, as yet, surveyed. Legal land descriptions given for these site are approximations of the correct descriptions that would have been available had the land been surveyed.

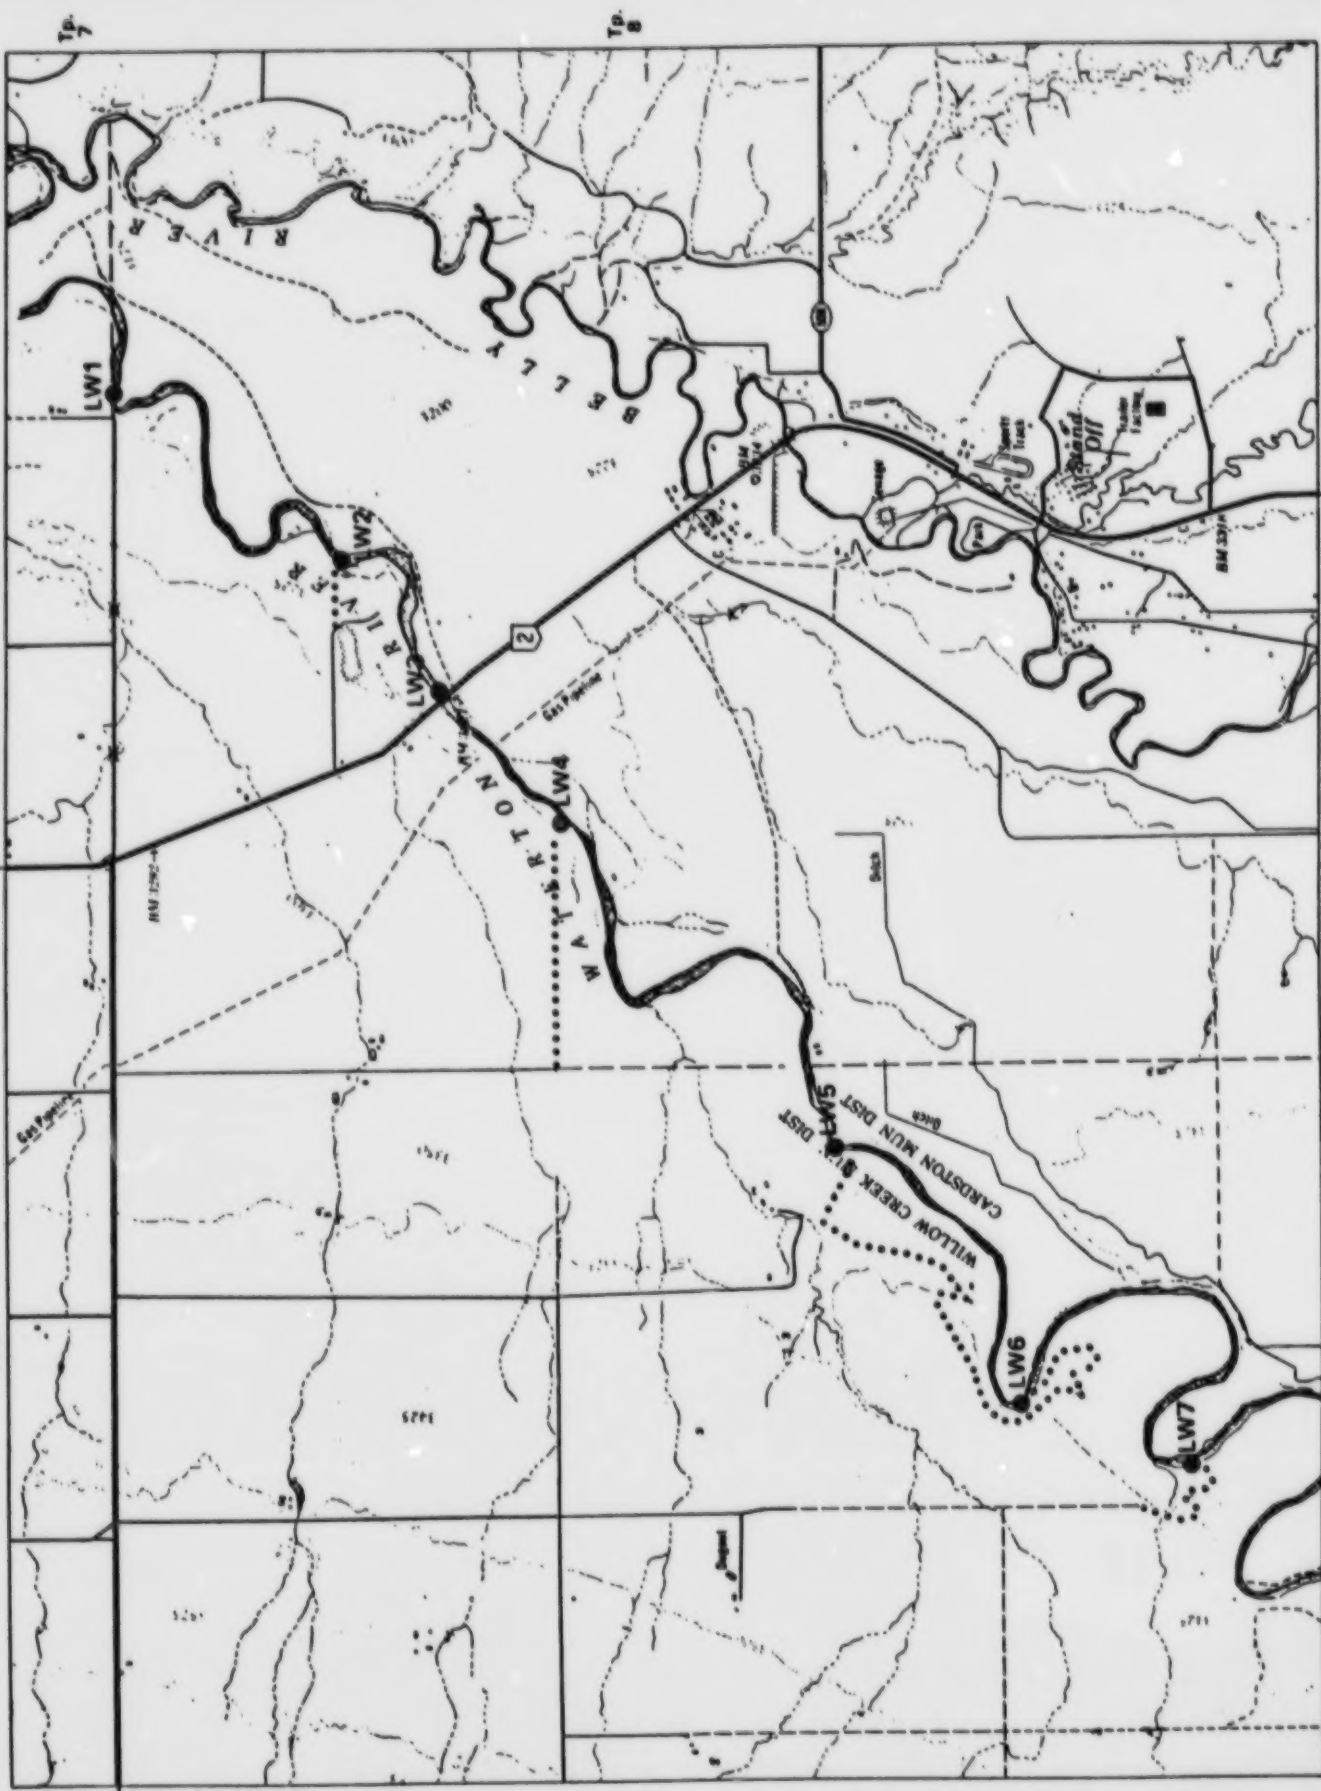

Fig. 3 Lower Waterton Sites 1 to 7.

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Lower Section) SITE: 1

LOCATION KEY: LW1

LEGAL LAND DESCRIPTION: SW 2-7-25-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 3.65 km from highway #2

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Graveled road allowance; trail

ROAD DEVELOPMENT REQUIRED: 400 m

ENVIRONMENT: The river flows over a gravel bed through a wide, flat
prairie floodplain. The area is quite scenic with fairly
extensive poplar stands and a high bluff rising about 200 m
directly to the north of the river.

LAND USE TYPE: Grazing, cultivation

COMMENTS: The high northern cutbank looks quite unstable and foot access
is advised. At low flows the river is quite shallow and gravel
bars evident.

SUITABILITY FOR DEVELOPMENT:

- ☐ UNSUITABLE
- ☒ 1 BASIC (SIGN, PARKING)
- ☒ 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- ☒ 3 DAY USE (SIGN, PARKING, TABLES PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Lower Section) SITE: 2

LOCATION KEY: LW2

LEGAL LAND DESCRIPTION: NW 28-6-25-4

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 1.3 km from #2 (from W. side), 2.2 km from E. side

DISTANCE TO SITE FROM NEAREST ROAD TRAIL: 250 m

ACCESS TYPE: Dirt trail (both sides)

ROAD DEVELOPMENT REQUIRED: 1.3 km/2.2 km

ENVIRONMENT: The river runs close to the west bank over a gravel bed. The
greater extent of the wide floodplain shows prairie
vegetation characteristics. Fairly extensive poplar stands
grow on the west bank of the river.

LAND USE TYPE: Grazing, cultivation

COMMENTS: One can gain access to the same site from either side of the
river. From the west, there is a fairly steep bank (covered
with garbage) leading to the river. From the east, the area is
open and bare. Travel over either trail is restricted by "no
trespassing" signs.

SUITABILITY FOR DEVELOPMENT:

- UNSUITABLE
- 1 BASIC (SIGN, PARKING, PRIVY, GARBAGE)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Lower Section) SITE: 3

LOCATION KEY: LW3

LEGAL LAND DESCRIPTION: E 1/2 29-6-25-4; public

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): Highway #2 bridge

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Bridge crossing

ROAD DEVELOPMENT REQUIRED: _____

ENVIRONMENT: The river runs over a wide rocky bed. Vegetation in the
area consists of grass on the hills rising above the
floodplain, with poplars and other deciduous cover (bushes)
along the river itself.

LAND USE TYPE: Recreation

COMMENTS: At this site there is an established day use facility that
includes a kitchen, firepits, privies and a small gravel boat
launch.

SUITABILITY FOR DEVELOPMENT:

- ☐ UNSUITABLE
- ☐ BASIC (SIGN, PARKING)
- ☐ FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- ☒ DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Lower Section) SITE: 4

LOCATION KEY: LW4

LEGAL LAND DESCRIPTION: NW 20-6-25-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 6.5 km from Highway #2

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: 150 m

ACCESS TYPE: Gravel road, undeveloped road allowance

ROAD DEVELOPMENT REQUIRED: 2.0 km

ENVIRONMENT: The stream runs along the west side of a fairly wide
floodplain. Immediately west of the river, a cutbank rises
(10 m) and there is fairly extensive poplar growth on the
east shore.

LAND USE TYPE: Grazing, cultivation

COMMENTS: This is a very nice area which would do well as a "basic"
fishery location. With facilities 1 mile down stream, none are
necessary here).

SUITABILITY FOR DEVELOPMENT:

- UNSUITABLE
- 1 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Lower Section) SITE: 5

LOCATION KEY: LW5

LEGAL LAND DESCRIPTION: NE 13-6-26-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 8.65 km from Highway #2

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Gravel road; private trail; dirt track

ROAD DEVELOPMENT REQUIRED: 1.1 km

ENVIRONMENT: Deciduous cover is more extensive at this site, including more
brush vegetation. The floodplain is still wide, but the
cutbank feature of previous sites has disappeared. The river
flows over a gravel bed, with the river channel situated
towards the west side of the valley.

LAND USE TYPE: Cultivation, grazing

COMMENTS: Access to the river at this point is easy and a deeper pool as
the river rounds a bend may prove to be a good fishing spot.
However the presence of transformers and "no trespassing" signs
detract from the area.

SUITABILITY FOR DEVELOPMENT:

- UNSUITABLE
- 1 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Lower Section) SITE: 6

LOCATION KEY: LW6

LEGAL LAND DESCRIPTION: NE 11-6-26-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE) 13.45 km from #2

DISTANCE TO SITE FORM NEAREST ROAD/TRAIL: 100 m

ACCESS TYPE: Graveled road, dirt trail

ROAD DEVELOPMENT REQUIRED: 4.8 km

ENVIRONMENT: A high bluff rises directly from the west bank of the river.

The areas that have not been cleared for cultivation are

vegetated with poplars and some brush.

LAND USE TYPE: Cultivation

COMMENTS: Although not close to any main roads, and the present road

leading to it is inadequate, this site should be considered for

development as it is scenic, sheltered and secluded.

SUITABILITY FOR DEVELOPMENT:

- ☐ UNSUITABLE
- ☒ 1 BASIC (SIGN, PARKING)
- ☒ 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- ☒ 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER).

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Lower Section) SITE: 7

LOCATION KEY: LW7

LEGAL LAND DESCRIPTION: SW 11-6-26-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 8.8 km from Secondary Road #810

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Graveled road allowance; dirt track

ROAD DEVELOPMENT REQUIRED: 2.2 km

ENVIRONMENT: The hills rising from the floor of the floodplain are low and
grassy while the river winding through the area is bordered
with deciduous vegetation, eg., poplar and brush.

LAND USE TYPE: Grazing, cultivation

COMMENTS: It is easy to reach this site, but it is posted with "no
trespassing" signs. A power line across the area
detracts from its appearance.

SUITABILITY FOR DEVELOPMENT:

- UNSUITABLE
- 1 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

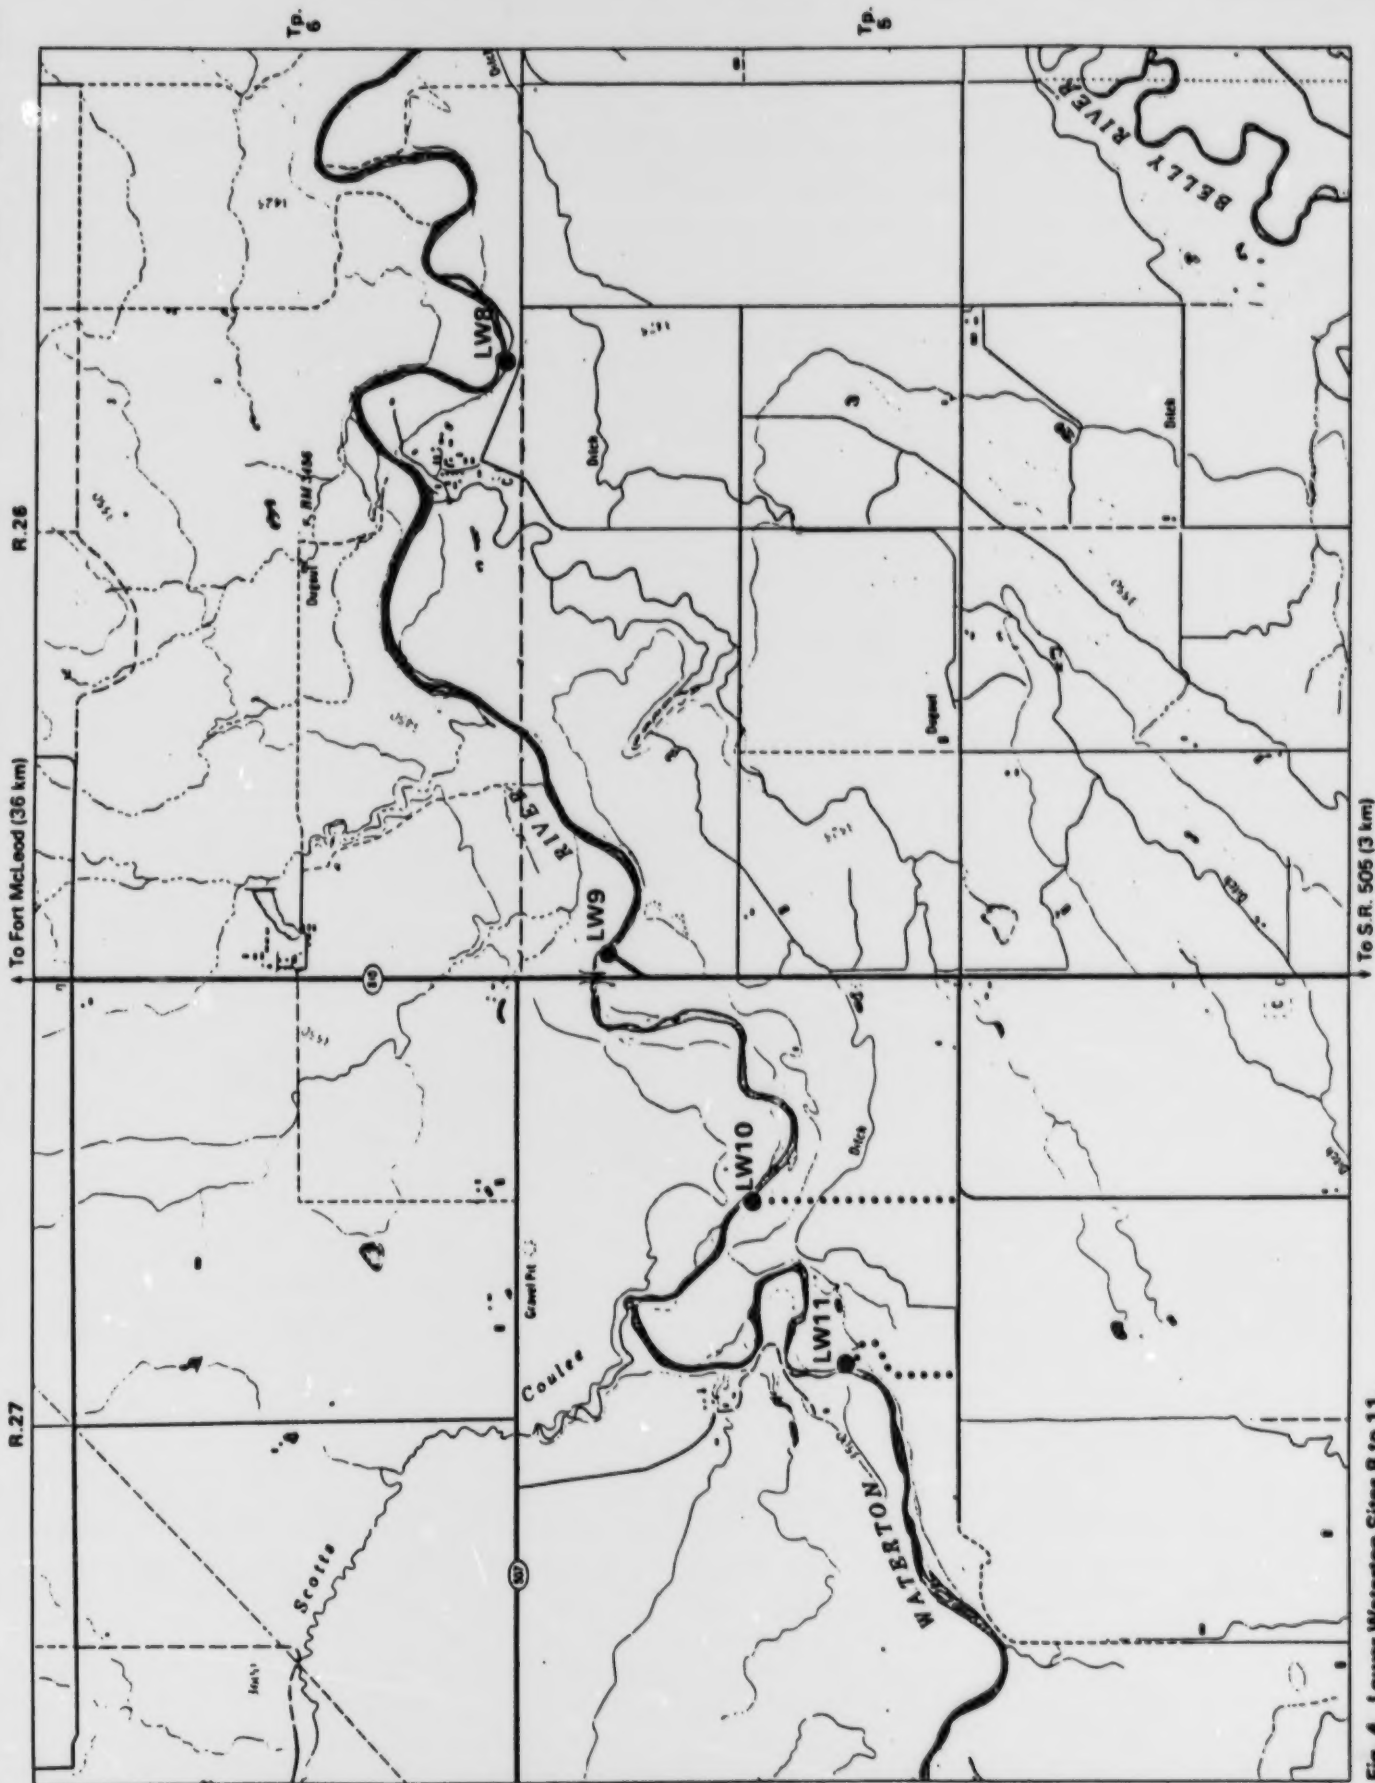

Fig. 4 Lower Waterton Sites 8 to 11.

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Lower Section) SITE: 8

LOCATION KEY: LW8

LEGAL LAND DESCRIPTION: E 1/2 4-6-26-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 5.75 km from Secondary Road #810

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: 100 m

ACCESS TYPE: Gravel road

ROAD DEVELOPMENT REQUIRED: 100 m

ENVIRONMENT: The river meanders close to the southern edge of the
floodplain where a steep bank rises. Vegetation consists of
brush and grass on the slopes, with scattered deciduous cover
in the valley bottom.

LAND USE TYPE: Grazing

COMMENTS: The road runs along the edge of the cutbank overlooking the
river. Presently there is no way down except through the yard of
a Hutterite Colony.

SUITABILITY FOR DEVELOPMENT:

- UNSUITABLE
- 1 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Lower Section) SITE: 9

LOCATION KEY: LW9

LEGAL LAND DESCRIPTION: 36/31-26/27-5-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): Bridge on Secondary Road #810

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Paved road, bridge crossing

ROAD DEVELOPMENT REQUIRED: _____

ENVIRONMENT: The river runs over a gravel bed through an area of the
floodplain more heavily treed than the sites downstream. A
steep stratified bluff rises as the north bank of the river.

LAND USE TYPE: Grazing, cultivation

COMMENTS: Although the land is privately owned, an area has been opened
for what looks like public use. There is a place to launch a
small boat and ample space for parking and other facilities on
the east side of the highway. The scenic aspect also recommends
this site for development.

SUITABILITY FOR DEVELOPMENT:

- UNSUITABLE
- 3 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 1 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Lower Section) SITE: 10

LOCATION KEY: LW10

LEGAL LAND DESCRIPTION: NW-25-5-27-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 2.65 km to Secondary Road #810

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: 300 m

ACCESS TYPE: Undeveloped road allowance, dirt track

ROAD DEVELOPMENT REQUIRED: 1.3 km

ENVIRONMENT: The floodplain extends to the north in a terraced fashion
while the south bank of the river is a high cutbank. The area
is basically grassland with a few poplars around the bend of
the river.

LAND USE TYPE: Grazing

COMMENTS: Presently it is fairly difficult to reach the river from the
south bank. Access may be more feasible from the north, but
there are no tracks or trails.

SUITABILITY FOR DEVELOPMENT:

- UNSUITABLE
- 1 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Lower Section) SITE: 11

LOCATION KEY: LW11

LEGAL LAND DESCRIPTION: NW 26-5-27-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 3.8 km from Secondary Road #810

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: 300 m

ACCESS TYPE: Graveled road; dirt track

ROAD DEVELOPMENT REQUIRED: 1.35 km

ENVIRONMENT: At this site, the river runs over a graveled bed through a
wide, terraced floodplain covered by fairly extensive poplar
stands.

LAND USE TYPE: Grazing, cultivation

COMMENTS: The trail goes right down to the river where there is a wide
gravel beach. The area is scenic and appropriate for facility
development if access could be arranged.

SUITABILITY FOR DEVELOPMENT:

- UNSUITABLE
- 2 BASIC (SIGN, PARKING)
- 1 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Lower Section) SITE: 14

LOCATION KEY: LW14

LEGAL LAND DESCRIPTION: NW 19-5-27-4; Private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 6.65 km from Secondary Road #507

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: 300 m

ACCESS TYPE: Gravel road allowance, trail

ROAD DEVELOPMENT REQUIRED: 1.0 km

ENVIRONMENT: The river flows at the base of a fairly high gravel cutbank
on the east side of a wide grassy floodplain. Deciduous cover
next to the river is quite thick becoming sparser as distance
from the river increases.

LAND USE TYPE: Grazing, Cultivation

COMMENTS: The trail to the river runs directly through a farmyard where
junk has been indiscriminately scattered over the whole area.
Nearer the river, there is evidence of gravel quarrying,
including a large stockpile.

SUITABILITY FOR DEVELOPMENT

- UNSUITABLE
- 1 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Lower Section) SITE: 15

LOCATION KEY: LW15

LEGAL LAND DESCRIPTION: SE 18-5-27-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 9.2 km from Secondary Road #505

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: 50 m

ACCESS TYPE: Gravel road

ROAD DEVELOPMENT REQUIRED: 50 m

ENVIRONMENT: The river here runs over a broad, gravel floodplain and has
trees growing along its edges. Some backwater pools have
formed at the base of the bluff overlooking this site.

LAND USE TYPE: Grazing; cultivation

COMMENTS: The landowner is amenable to allowing access to the river.
There is a garbage dump over the south bank (cutbank) of the
river.

SUITABILITY FOR DEVELOPMENT:

- UNSUITABLE
- 1 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Lower Section) SITE: 16

LOCATION KEY: LW16

LEGAL LAND DESCRIPTION: SW 1-5-28-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 4.1 km from Secondary Road #505

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Gravel road; gravel trail

ROAD DEVELOPMENT REQUIRED: 1.2 km

ENVIRONMENT: The river runs over a wide gravel bed with high cutbanks
rising both to the north and south. Deciduous vegetation is
fairly extensive here.

LAND USE TYPE: Grazing

COMMENTS: This would be a good area if it were cleaned up - quite a bit of
junk is lying around. The road to this site goes through an
abandoned farmyard and there are a couple of nice side channels
running by the river.

SUITABILITY FOR DEVELOPMENT:

- UNSUITABLE
- 2 BASIC (SIGN, PARKING)

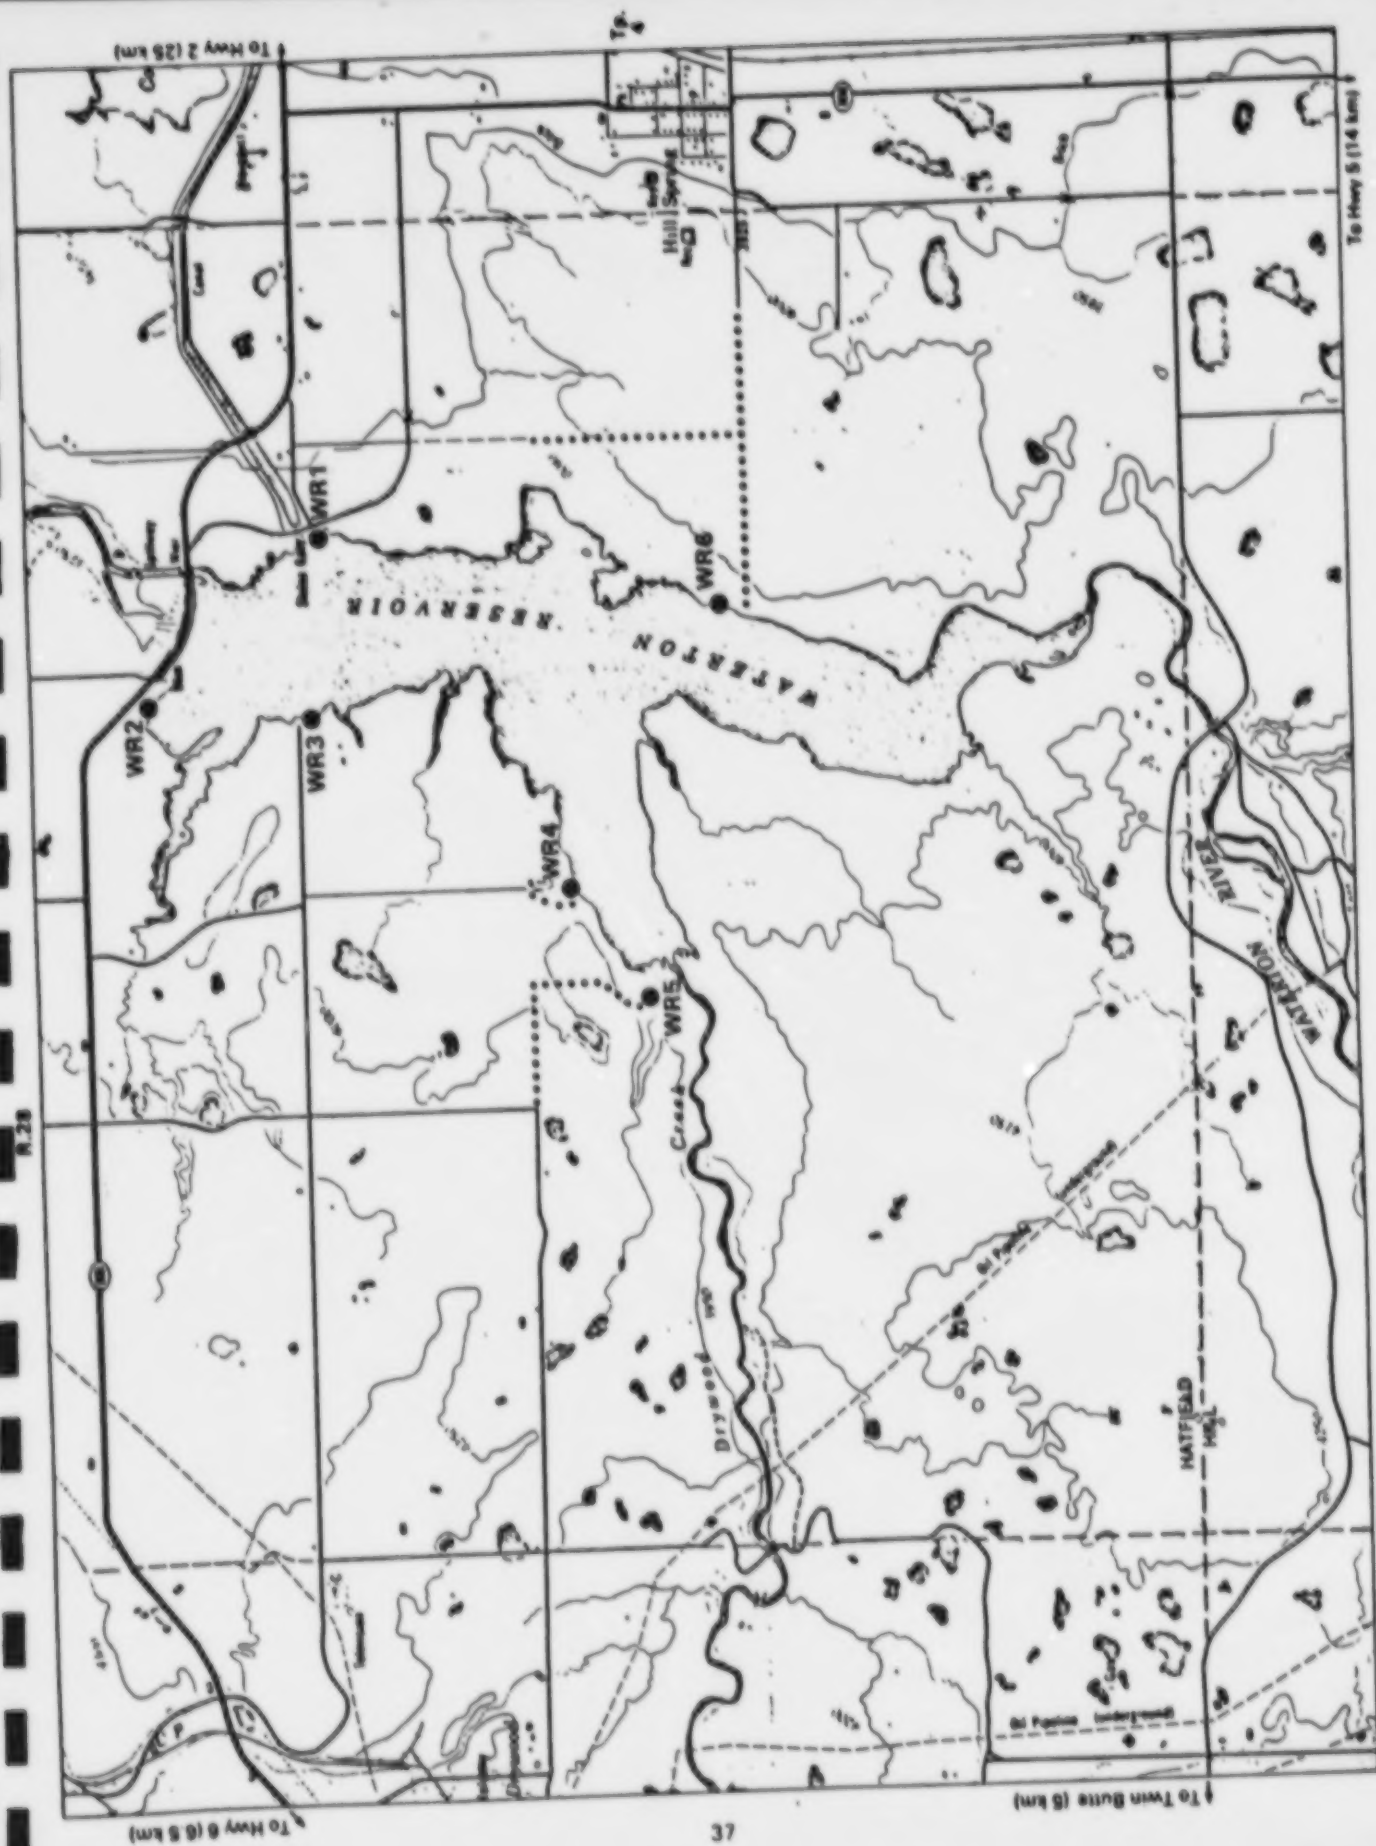

Fig. 8 Waterton Reservoir.

SITE DESCRIPTION

RIVER OR STREAM: Waterton Reservoir SITE: 1

LOCATION KEY: WR1

LEGAL LAND DESCRIPTION: NW 23-4-28-4

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 1.0 km from Secondary Road #505

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Gravel road

ROAD DEVELOPMENT REQUIRED: _____

ENVIRONMENT: Reservoir fluctuations periodically expose extensive silt/mud
beaches. There are grassy hills to the south, but no trees.

LAND USE TYPE: Water storage

COMMENTS: Development is unnecessary as an established site exists across
the dam. Also, fluctuating water levels would make site
development difficult and the scenic values are not high.

SUITABILITY FOR DEVELOPMENT:

- ☐ UNSUITABLE
- ☐ 1 BASIC (SIGN, PARKING)
- ☐ 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- ☐ 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Waterton Reservoir SITE: 2

LOCATION KEY: WR2

LEGAL DESCRIPTION: NE 27-4-28-4; public

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 300 m from Secondary Road #505

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Gravel road

ROAD DEVELOPMENT REQUIRED: _____

ENVIRONMENT: This part of the reservoir has grassy banks. Mud flats are
periodically exposed below these banks by fluctuating water
levels. A few trees have been planted.

LAND USE TYPE: Recreation

COMMENTS: This is an established day use facility complete with picnic
tables, privies, a kitchen and playground equipment. The area,
however, has little vegetation and is often windy.

SUITABILITY FOR DEVELOPMENT:

- ☐ UNSUITABLE
- ☐ BASIC (SIGN, PARKING)
- ☐ FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- ☒ DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Waterton Reservoir SITE: 3

LOCATION KEY: WR3

LEGAL LAND DESCRIPTION: NE 22-4-28-4

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 2.85 km from Secondary Road #505

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Gravel road

ENVIRONMENT: A sand/silt beach is exposed when water levels are low.

Grassy hills rise above the high-water line.

LAND USE TYPE: Water storage

COMMENTS: This area is slightly more sheltered than previous sites

listed, but the presence of a facility to the north makes

development here unnecessary.

SUITABILITY FOR DEVELOPMENT:

- ☐ UNSUITABLE
- ☐ 1 BASIC (SIGN, PARKING)
- ☐ 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- ☐ 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Waterton Reservoir SITE: 4

LOCATION KEY: WR4

LEGAL LAND DESCRIPTION: NW 15-4-28-4

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 3.45 km from Secondary Road #505

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: 400 m

ACCESS TYPE: Gravel road, dirt track

ROAD DEVELOPMENT REQUIRED: 1.9 km

ENVIRONMENT: Rolling grassland rises above the high-water mark of the
reservoir.

LAND USE TYPE: Water storage, grazing

COMMENTS: The road goes right down to the shore, but is fenced off and a
"no trespassing" sign has been posted.

SUITABILITY FOR DEVELOPMENT:

- ☐ UNSUITABLE
- ☐ 1 BASIC (SIGN, PARKING)
- ☐ 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- ☐ 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,

SITE DESCRIPTION

RIVER OR STREAM: Waterton Reservoir SITE: 5

LOCATION KEY: WR5

LEGAL LAND DESCRIPTION: SW 16-4-28-4

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 5.25 km from Secondary Road #505

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Gravel road, dirt trail

ROAD DEVELOPMENT REQUIRED: 2.1 km

ENVIRONMENT: Rolling grassland rises above the mudflats where the Drywood
Creek enters the Waterton Reservoir. There are some trees and
bushes .

LAND USE TYPE: Grazing, water storage

COMMENTS: This site is scenic and pleasant when the reservoir is full.
There is a moderately treed ravine by the road, and some
abandoned buildings add interest to the area.

SUITABILITY FOR DEVELOPMENT:

- UNSUITABLE
- 2 BASIC (SIGN, PARKING)
- 1 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,

SITE DESCRIPTION

RIVER OR STREAM: Waterton Reservoir SITE: 6

LOCATION KEY: WR6

LEGAL LAND DESCRIPTION: N 1/2 14-4-28-4

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 4.3 km from Secondary Road #505

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: 200 m

ACCESS TYPE: Undeveloped road allowance, fence line

ROAD DEVELOPMENT REQUIRED: 3.1 km

ENVIRONMENT: This site has grassy slopes rising quite sharply above a
sandy bank. There are a few bushes in the ravine.

LAND USE TYPE: Grazing, water storage

COMMENTS: This area is located in a fairly sheltered scenic ravine, but
access is not direct. If the weather was wet, a 4X4 would
probably be needed to climb the hill between the main road and
this site.

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Upper Section) SITE: 1

LOCATION KEY: UW1

LEGAL LAND DESCRIPTION: NE 34-3-28-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 4.75 km from Secondary Road #800

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Gravel road, bridge crossing

ROAD DEVELOPMENT REQUIRED: _____

ENVIRONMENT: The river runs over gravel bed, shallow enough to expose bars,
and through an area of rolling grassy hills, with poplar
stands along the riverbanks.

LAND USE TYPE: Grazing

COMMENTS: The land on both sides of the bridge is privately owned and the
river is fenced off on both sides.

SUITABILITY FOR DEVELOPMENT

- UNSUITABLE
- 1 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Waterton River (Upper Section) SITE: 2

LOCATION KEY: UW2

LEGAL LAND DESCRIPTION: N 1/2 - 34, S 1/2 - 33, NE 29-3-28-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): East end of this section 4.75 km from #800

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: < 100 m

ACCESS TYPE: Gravel road

ROAD DEVELOPMENT REQUIRED: _____

ENVIRONMENT: The river runs through a wide valley vegetated by deciduous
stands and bushes. Grassy hills rise on either side of the
floodplain.

LAND USE TYPE: Grazing, feedlot

COMMENTS: This section of the river has been re-channeled and the banks
have been built up. Three fences block access to the site over
much of the 100 m space between the road and the river, (the area
is used for a feedlot operation). Trespassers are not welcome.

SUITABILITY FOR DEVELOPMENT

- ☒ UNSUITABLE

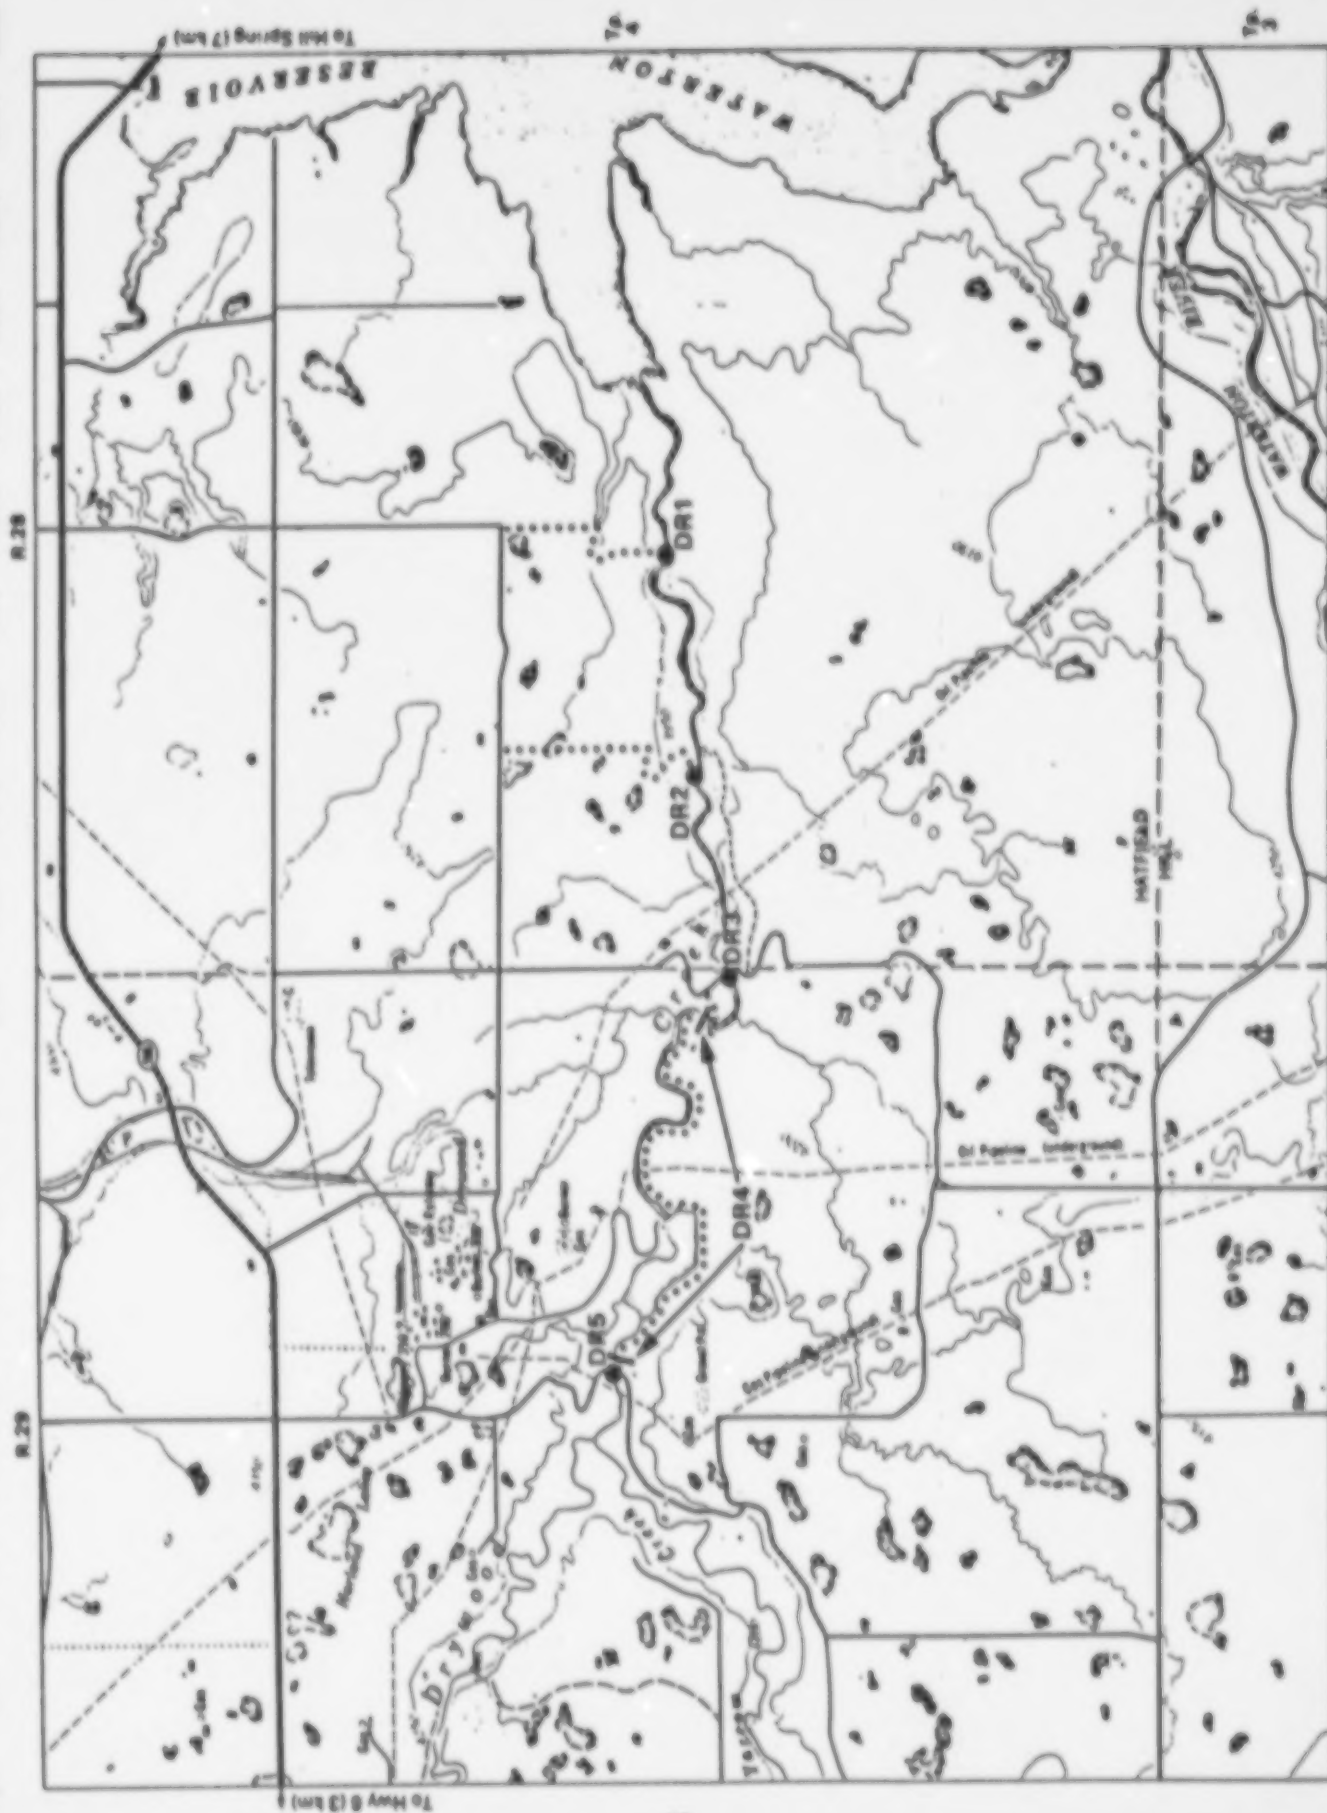

Fig. 9 Drywood Creek Sites 1 to 5.

SITE DESCRIPTION

RIVER OR STREAM: Drywood Creek SITE: 1

LOCATION KEY: DR1

LEGAL LAND LOCATION: SE 17-4-28-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD: 2.75 km from Secondary Road #505

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: 200 m

ACCESS TYPE: Graveled road allowance, trail

ROAD DEVELOPMENT REQUIRED: 1.6 km

ENVIRONMENT: The nearest one can get to this site from the north, is a
point on a bluff about 200 m above the floodplain, which is
grassy, terraced, and supports a few trees along the stream.

LAND USE TYPE: Grazing, cultivation

COMMENTS: Unless some sort of road can be constructed down the cliff, this
site is basically unaccessible from the north. Access from the
south by undeveloped road allowance is blocked by fences
bordering private land.

SUITABILITY FOR DEVELOPMENT:

- UNSUITABLE
- 1 BASIC (SIGN, PARKING)

ROAD DEVELOPMENT REQUIRED: _____

ENVIRONMENT: This site is well into the "foothills" environment. The
valley is wide and flanked by grassy hills. The stream runs
over a gravel/silt bottom and is bordered by a few stunted
trees or bushes. The area is exposed and windy.

LAND USE TYPE: Grazing

COMMENTS: This is not as nice as the previous site although access is more
direct and the small space of land near the bridge is public.

SUITABILITY FOR DEVELOPMENT:

- ____ UNSUITABLE
- 1 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Drywood Creek SITE: 15

LOCATION KEY: DR15

LEGAL LAND DESCRIPTION: SE 17-4-30-4

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 150 m from Secondary Road #505

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Gravel road

ROAD DEVELOPMENT REQUIRED: _____

ENVIRONMENT: The area surrounding the northern Drywood Creek Reservoir is
fairly bare (probably resulting from construction of the dam).
Some grass grows on the banks.

LAND USE TYPE: Shell Canada

COMMENTS: Some ice fishing occurs on in the winter, but Shell Canada
discourages this activity because of potential ice instability.

SUITABILITY FOR DEVELOPMENT:

- ☒ UNSUITABLE
- ☐ BASIC (SIGN, PARKING)
- ☐ FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- ☐ DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Drywood Creek SITE: 16

LOCATION KEY: DR16

LEGAL LAND DESCRIPTION: NE 17-4-30-4

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 450 m from Secondary Road #505

DISTANCE TO SIRE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Gravel road; footbridge crossing

ENVIRONMENT: This is a flat area just west of the reservoir. The
vegetation was not disturbed (or has been reestablished).

LAND USE TYPE: Picnic Area

COMMENTS: Shell has set up a picnic area at this site, including a
footbridge over the stream. The area is open to the public
and has a good view of the mountains to the west. The gas
plant to the north detracts from the otherwise high scenic
values of this site and a nearby sulphur processing plant can
be smelt when the wind blows from the north.

SUITABILITY FOR DEVELOPMENT:

- ☒ UNSUITABLE

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 3.0 km from Secondary Road #505

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: 50 m

ACCESS TYPE: Gravel trail

ROAD DEVELOPMENT REQUIRED: _____

ENVIRONMENT: This site is in a shallow valley, whose walls work into the
foothills. Vegetation is primarily deciduous cover and open
grassy areas.

LAND USE TYPE: Grazing

COMMENTS: There is a flat, wide place to park. A short walk leads to a
sheltered, narrow bend of the creek where the water is quite
deep.

SUITABILITY FOR DEVELOPMENT

- UNSUITABLE
- 1 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: South Drywood Creek SITE: 3

LOCATION KEY: SDR3

LEGAL LAND DESCRIPTION: SW 9-4-30-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 3.65 km from Secondary Road #505

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: 200 m

ACCESS TYPE: Gravel road, footpath

ROAD DEVELOPMENT REQUIRED: 200 m

ENVIRONMENT: At this point, the creek runs over a gravel bed in a sheltered
shallow valley vegetated with deciduous trees and bushes.

LAND USE TYPE: Grazing

COMMENTS: The south bank of the floodplain is quite steep, although there
is a trail to walk down to the stream through the bushes. The
flat area of the valley, on the south side of the stream, is
somewhat swampy.

SUITABILITY FOR DEVELOPMENT

- UNSUITABLE

LOCATION KEY: SDR6

LEGAL LAND DESCRIPTION: SE 12-4-1-5; (unsurveyed) Public land

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 5.85 km from Secondary Road #505

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Gravel road, pipeline crossing

ROAD DEVELOPMENT REQUIRED: _____

ENVIRONMENT: The stream runs over an extensive gravel bed which may have
resulted from excavation during pipeline construction.

Vegetation consists of a few conifers, larger deciduous trees
and brush.

LAND USE TYPE: Forest reserve, pipeline

COMMENTS: A beaver dam a few metres upstream has formed a pool in which to
fish. There is a long, flat area on which to park, and the road
runs alongside the river. Although it is usually Shell Canada's
policy not to allow people on pipeline routes, fisheries access
development should be considered because of the obvious
suitability of this site and its scenic attributes.

SUITABILITY FOR DEVELOPMENT

- UNSUITABLE
- 3 BASIC (SIGN, PARKING)

ACCESS TYPE: Graveled road allowance; mud trail

ROAD DEVELOPMENT REQUIRED: 500 m

ENVIRONMENT: This site is located in a wide valley. The south-facing
slopes are grassy, while north-facing slopes are covered with
deciduous trees.

LAND USE TYPE: Grazing

COMMENTS: This is a scenic, sheltered, treed area. There is a wide grassy
area suitable for the placement of facilities. An old farmstead
at this location adds to the aesthetic quality of the area.

SUITABILITY FOR DEVELOPMENT:

- UNSUITABLE
- 3 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 1 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Yarrow Creek SITE: 6

LOCATION KEY: YR6

LEGAL LAND DESCRIPTION: NE 2-4-30-4; Private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 5.1 km from Highway #6

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Gravel road, undeveloped road allowance

ROAD DEVELOPMENT REQUIRED: 2.1 km

ENVIRONMENT: This site is located in a narrow foothills valley with
deciduous trees, conifers and brush on north-facing slopes,
and grass and a few bushes on the south-facing slopes.

LAND USE TYPE: Grazing

COMMENTS: There is a wide, scenic area at the valley bottom with space for
all facilities. Access at present is by foot.

SUITABILITY FOR DEVELOPEMNT:

- ☐ UNSUITABLE
- ☒ 2 BASIC (SIGN, PARKING)
- ☒ 1 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- ☒ 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Yarrow Creek SITE: 7

LOCATION KEY: YR7

LEGAL LAND DESCRIPTION: SE 27-3-30-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 7.3 km from Highway #6

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Graveled road allowance, gravel trail, ford crossing

ROAD DEVELOPMENT REQUIRED: 200 m

ENVIRONMENT: This site is well into the foothills environment and the
stream runs in a shallow gravel bed. Vegetation is extensive
- mostly brush and deciduous cover with some conifers.

LAND USE TYPE: Grazing

COMMENTS: The road at this point runs right through the stream. The area
could easily be cleared for parking and facilities. There is a
fire pit on the west side of the stream.

SUITABILITY FOR DEVELOPMENT:

- UNSUITABLE
- 2 BASIC (SIGN, PARKING)
- 1 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,

LEGAL LAND DESCRIPTION: NE 22-3-30-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 7.25 km from Highway #6

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Gravel road allowance, bridge crossing

ROAD DEVELOPMENT REQUIRED: _____

ENVIRONMENT: The river valley is quite narrow and deep at this point. As
with the "foothills" - type environment, the area is
extensively vegetated with bushes and deciduous trees.

LAND USE TYPE: Grazing

COMMENTS: There is a small area to the west of the bridge where a vehicle
could be parked, and it is easy to walk down to the stream from
the south side of the bridge.

SUITABILITY FOR DEVELOPMENT:

- UNSUITABLE
- 1 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 6.4 km from Highway #6

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Culvert crossing on gravel road

ROAD DEVELOPMENT REQUIRED: _____

ENVIRONMENT: The stream runs in a wide, rocky bed and is flanked by heavy
brush and some deciduous trees. Foothills rise to the east
and west.

LAND USE TYPE: Grazing

COMMENTS: There is an open flat space to park a vehicle and it is easy to
walk down to the creek (about 20 m). This site is located on a
road posted with a Shell Canada "use at your own risk", sign.

SUITABILITY FOR DEVELOPMENT:

- ☐ UNSUITABLE
- ☒ 1 BASIC
- ☐ 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- ☐ 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Yarrow Creek SITE: 10

LOCATION KEY: YR10

LEGAL LAND DESCRIPTION: 9-3-30-4 (currently not surveyed); public land

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 8.8 km from Highway #6

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: 100 m

ACCESS TYPE: Gravel road

ROAD DEVELOPMENT REQUIRED: _____

ENVIRONMENT: Mountainous terrain surrounds this site. The area is covered
by conifers on south-facing slopes (north-facing slopes are
quite bare) and brush in the valley bottom.

LAND USE TYPE: Grazing (east of fence)/Waterton Lakes National Park (west
of fence)

COMMENTS: This point in the road is barred by a locked gate; unauthorized
vehicles are not allowed into the national park from this point.
One can walk to the stream from the gate, but there is no place
to leave a vehicle. At this point the stream flows underground
in the winter.

SUITABILITY FOR DEVELOPMENT:

- ☐ UNSUITABLE
- ☒ 1 BASIC (SIGN, PARKING)
- ☒ 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- ☒ 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 10.9 km from Highway #6

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Culvert crossing on gravel road

ROAD DEVELOPMENT REQUIRED: _____

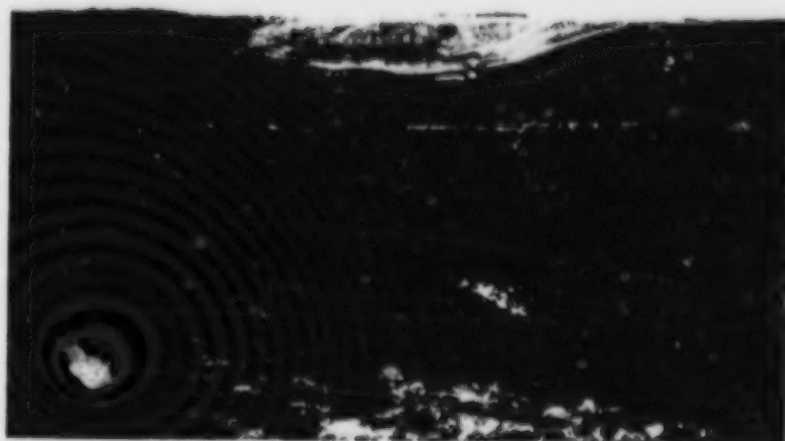

ENVIRONMENT: At this site the stream flows over a rocky bed which has been
excavated to flow through a culvert. Vegetation in this
mountainous area consists of conifers on north-facing slopes
and deciduous cover in the valley.

LAND USE TYPE: Forest reserve

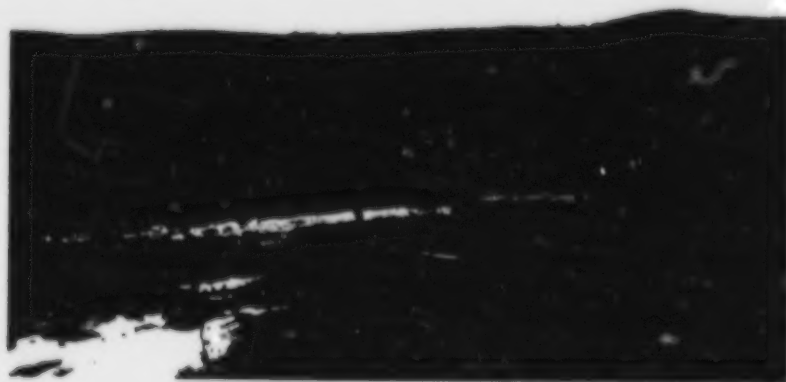

COMMENTS: At this point Yarrow Creek has, passed out of Waterton Lakes
National Park but as the only access is through the park (and
vehicle access is restricted) this site would be unsuitable for
development. Also the stream flows underground during the
winter.

SUITABILITY FOR DEVELOPMENT:

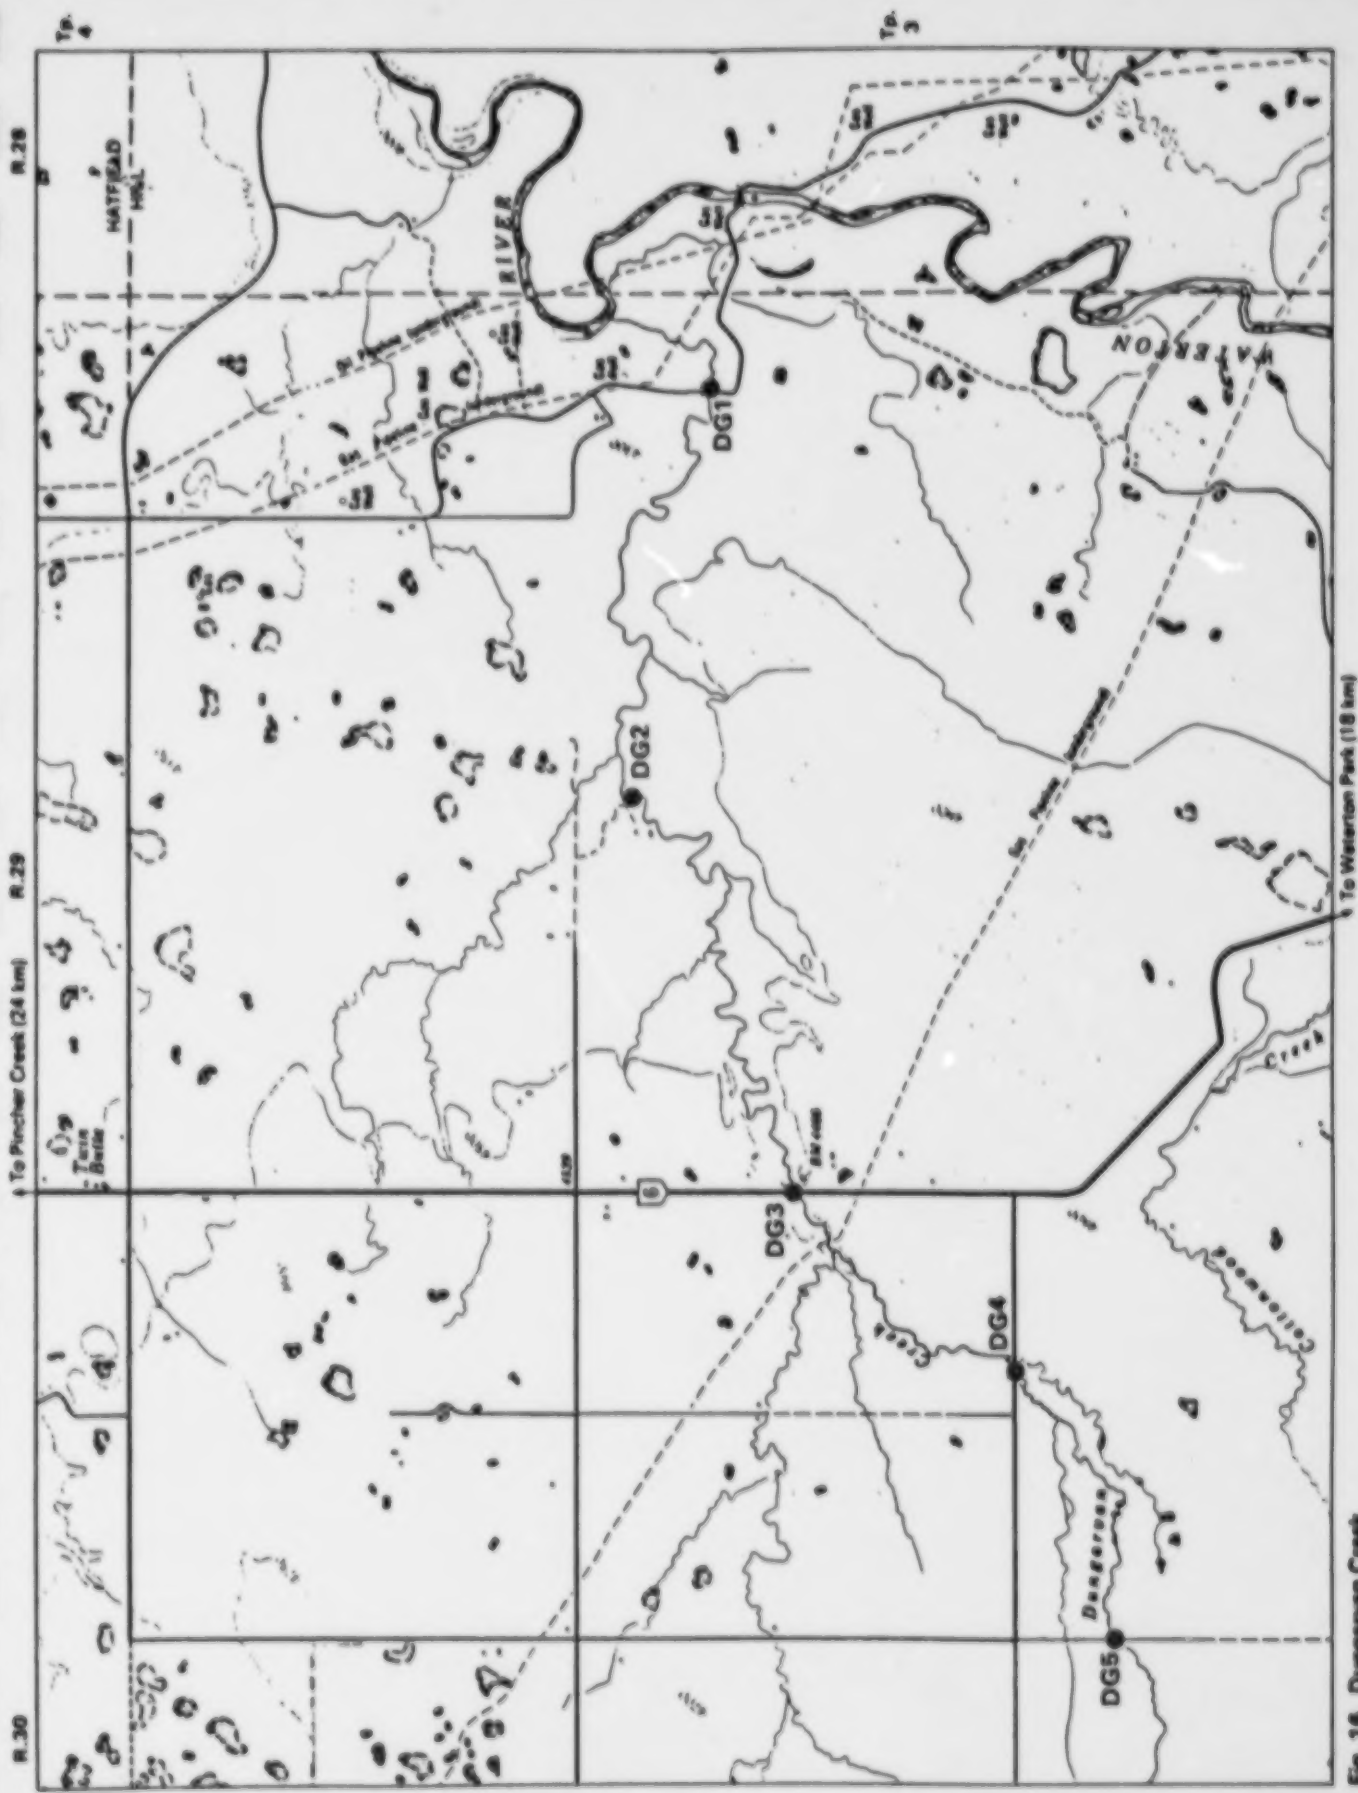

Fig. 16 Dungarvan Creek

SITE DESCRIPTION

RIVER OR STREAM: Dungarvan Creek SITE: 1

LOCATION KEY: DG1

LEGAL LAND DESCRIPTION: SE 24-3-29-4; leased

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 9.9 km from Highway #6

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Gravel road to bridge crossing

ROAD DEVELOPMENT REQUIRED: _____

ENVIRONMENT: Prairie vegetation above a shallow, sloping, grassy valley.

The area is covered by brush, and some deciduous trees, with a
few conifers upstream.

LAND USE TYPE: Grazing, recreation

COMMENTS: A private picnic area with tables, fire pit and an outhouse has
been set up here. There is currently no vehicular access to this
attractive site.

SUITABILITY FOR DEVELOPMENT

- UNSUITABLE
- 3 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 1 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Dungarvan Creek SITE: 2

LOCATION KEY: DG2

LEGAL LAND DESCRIPTION: SE 22-3-29-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 2.95 km to Highway #6

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Graveled road allowance, grass trail

ROAD DEVELOPMENT REQUIRED: 0.5 km

ENVIRONMENT: A wide creek runs through a shallow, grassy valley. The
beginning of foothills terrain is seen here, covered by
broadleaved trees and bushes.

LAND USE TYPE: Grazing

COMMENTS: Abandoned buildings make this spot especially scenic. The trail
leads right up to a wide, gravel creek bed.

SUITABILITY FOR DEVELOPMENT

- _____ UNSUITABLE
- 1 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN,
WOOD, WATER)

SITE DESCRIPTION

RIVER OR STREAM: Dungarvan Creek SITE: 3

LOCATION KEY: DG3

LEGAL LAND DESCRIPTION: SE 20-3-29-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): _____

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Highway #6 bridge

ROAD DEVELOPMENT REQUIRED: _____

ENVIRONMENT: The beginning of foothills terrain is seen here, although
vegetation consists mostly of grass and a few bushes. The
area is bare and unsheltered.

LAND USE TYPE: Grazing

COMMENTS: The bridge is on a major road, but no parking area has been
developed nearby. The presence of the Yarrow Creek campground
7.5 km north of this site makes major development unnecessary.

SUITABILITY FOR DEVELOPMENT

SITE DESCRIPTION

RIVER OR STREAM: Cottonwood Creek SITE: 1

LOCATION KEY: CT1

LEGAL LAND DESCRIPTION: SE 1-3-30-4 / NW 6-3-29-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): 6.6 km from Highway #6

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: _____

ACCESS TYPE: Graveled undeveloped road allowance

ROAD DEVELOPMENT REQUIRED: Approximately 1.5 km

ENVIRONMENT: Located at base of the Rocky Mountains (still within the
foothills), the area is primarily forested with deciduous
trees and a few conifers.

LAND USE TYPE: Grazing

COMMENTS: There is no access except by foot (1.5 km walk). As the creek
begins from a spring near this point, it is still very narrow and
would not be well populated by fish. As well, the site is
located within the UNESCO "Man & the Biosphere" project boun-
daries whose mandate prohibits the entry of motorized vehicles.

SUITABILITY FOR DEVELOPMENT

LEGAL LAND DESCRIPTION: S 1/2 22-2-29-4 / NW 15-2-29-4; private

DISTANCE TO SITE FROM HIGHWAY/SECONDARY
ROAD (TOTAL DISTANCE): about 200 m

DISTANCE TO SITE FROM NEAREST ROAD/TRAIL: about 200 m

ACCESS TYPE: Section adjacent to highway #5

ROAD DEVELOPMENT REQUIRED: about 200 m

ENVIRONMENT: A flat, grassy area rising to hills covered with bushes.

Brush grow alongside the stream.

LAND USE TYPE: Grazing

COMMENTS: The stream runs adjacent to road. If a parking area was to be
built near the middle of this section, and footpaths developed
to the stream, access would be adequate for this area.

SUITABILITY FOR DEVELOPMENT

- UNSUITABLE
- 1 BASIC (SIGN, PARKING)
- 2 FACILITY (SIGN, PARKING, PRIVY, GARBAGE)
- 3 DAY USE (SIGN, PARKING, TABLES, PRIVIES, GARBAGE, KITCHEN
WOOD, WATER)
